History

The predecessor of the American Board of Funeral Service Education was established in 1946 as the Joint Committee on Mortuary Education (Joint Committee) by joint resolutions of the National Funeral Directors Association (NFDA), the Conference of Funeral Service Examining Boards of the United States (renamed the International Conference of Funeral Service Examining Boards in 1998 - ICFSEB) and with the concurrence of the several associations of schools and colleges concerned with funeral service education.

The Joint Committee was composed of three representatives appointed by NFDA, three representatives appointed by the Conference and designated as that association's accreditation committee, and three representatives of the schools and colleges.

As stated in Article II of the original constitution, the Joint Committee "shall make and enforce its rules and regulations governing its procedure and conduct, and [it] shall formulate and promulgate and enforce rules and regulations setting up standards concerning the schools and colleges teaching mortuary science."

Article V of the same constitution stated, "the power to accredit schools and colleges of mortuary science shall be vested in the Conference of Funeral Service Examining Boards of the United States, Inc.," with the further provision that "schools and colleges of mortuary science shall have the right of appeal from decisions of the accreditation committee of the Conference of Funeral Service Examining Boards of the United States, Inc. to the appellate board of the Joint Committee on Mortuary Education. Rules and procedures for the appellate board shall be promulgated by the Joint Committee on Mortuary Education."

In 1959, the name of the Joint Committee on Mortuary Education was changed to the American Board of Funeral Service Education.

In 1962, authority for accreditation of funeral service institutions/programs was transferred from the Conference to the American Board of Funeral Service Education (ABFSE). The ABFSE has continued that function since then, serving as the sole accrediting agency in the United States in the field of funeral service/ mortuary science education.

In keeping with the principle of accreditation by peers, the ABFSE amended its constitution and by-laws in 1970 to provide for the establishment of a Commission on Schools within the framework of a restructured American Board of Funeral Service Education.

As a result thereof, Article VI of the Constitution of the American Board provides that, "the function of the Commission shall be:

1. to prepare for and certify to the American Board criteria and procedures for accreditation;
2. to receive reports of the Standards and Criteria committee and to certify to the American Board those schools that meet such criteria and are to be accredited; and
3. to establish, in cooperation with the American Board, appellate procedures on accreditation certifications of the Commission.

The American Board shall accept the certifications of the Commission and make official statements of accreditation."

In 1978, in reaction and response to recommendations made by the U.S. Office of Education, an ad hoc committee of the American Board of Funeral Service Education was appointed for the purpose of restructuring the Board in accordance with such recommendations. At that time, the Commission on Schools was changed to an autonomous and self-perpetuating standing committee of the Board and renamed the Committee on Accreditation (COA).

The American Board of Funeral Service Education has been recognized by the U.S. Dept. of Education (formerly the U.S. Office of Education) as the sole accrediting agency in funeral service and mortuary science education since 1972 and the American Board was accepted into the Council on Postsecondary Accreditation (COPA) in 1988 as a member of its Assembly of Specialized Accrediting Bodies. In 1993, COPA became the Council on Recognition of Postsecondary Accreditation (CORPA) which continued recognition of the ABFSE. Since 1997, ABFSE has also been recognized by the Council for Higher Education Accreditation (CHEA), which replaced CORPA.

In 1987, the curriculum of the American Board of Funeral Service Education received a complete review and a new policy was instituted implementing annual reviews to ensure that each course outline would be updated at least every 5 years. In 1988 and again in 1995, the Manual on Accreditation was extensively rewritten and updated to incorporate many necessary changes in policies as recommended by USDE, CORPA, and ABFSE members. Additional revisions and editorial changes have occurred on an annual basis since then.

In 1995 all Standards of Accreditation were reviewed and updated by the Committee on Accreditation and provisions were instituted for regular future reviews. The most recent review was 2012-2013. The next comprehensive review occurs during 2017-2018.

By 1995, ABFSE membership included 42 accredited college and university programs in Funeral Service Education and Mortuary Science, with four additional programs in the process of applying for accreditation. In 2016 there are 59 accredited programs.

In 2011, the Council for Higher Education Accreditation (CHEA) renewed the recognition of the Committee on Accreditation for a ten-year period. ABFSE submitted an interim report to CHEA in 2015.

At the April 2002 annual meeting in Dallas, Texas, the members of the American Board of Funeral Service Education approved a new Constitution and By-Laws which, among other revisions, approved an option of ABFSE membership for additional funeral service organizations. The National Funeral Directors and Morticians Association was admitted to full membership in September 2002. In 2009, the International Cemetery, Cremation and Funeral Association (ICCF) became a member. Cremation Association of North America was approved for membership in 2017.

In June, 2008, the National Advisory Committee on Institutional Quality and Integrity (NACIQI) of the U.S. Department of Education recommended that the Secretary of Education grant continued recognition to ABFSE for the full period of five years. In December of 2010, the NACIQI of the U.S. Department of Education began a lengthy process of recognition of the ABFSE. The committee's review was favorable and recognition was continued. During 2015, ABFSE completed the re-recognition petition and appeared before NACIQI. The follow-up visit is scheduled for December 2016.

The Committee on Accreditation (COA) expanded its voting membership when it welcomed a representative from the National Funeral Directors and Morticians Association in April, 2005. In 2012, ICCFA and the College and University Council were added to the voting membership of the COA, which now totals 12: 7 educators, 3 industry representatives and 2 public members.

The minimum requirements for accreditation are that a program offer at least an associate degree, or its equivalent (i.e., 60 semester credits of a prescribed curriculum,) and meet the required standards of the ABFSE. The Standards and associated policies are available on the ABFSE website (www.abfse.org). They may be accessed and downloaded by clicking on “ABFSE Standards” from the drop-down menu under “Accreditation/COA.”

Written comments are invited from interested parties concerning the qualifications for accreditation or candidacy of any listed program. Comments received will be considered by the Committee on Accreditation as part of its regular program review.

Robert C. Smith III

Membership

The membership of ABFSE consists of the funeral service education programs and colleges and professional organizations. The membership includes the following:

- 59 accredited institutions
- National Funeral Directors Association
- National Funeral Directors and Morticians Association
- International Cemetery, Cremation and Funeral Association
- Cremation Association of North America

Funeral Service Institutions

There are 59 accredited programs or institutions; 46 programs are offered in public multi-purpose institutions and 13 programs are in private institutions. Ten programs are provided by single purpose colleges specializing only in funeral service. The 59 institutions offer a total of 55 associate degrees, 8 baccalaureate degrees and 5 certificates and/or diplomas. Six institutions offer an option for Bachelor degree completion in a funeral service related field after completion of the accredited associate degree.

Funeral Service Students

Over the past few generations, there have been significant changes in the profiles of both the institutions offering funeral service education and the students studying to become funeral directors/embalmers.

Two generations ago, funeral service education was offered almost exclusively by private institutions and virtually 100% of the students were male and, for the most part, sons of funeral home owners. Over 90% of the students were white. Most programs offered a one-year (or less) diploma or a certificate.

In 2016 there were over 6000 students enrolled in funeral service education. Approximately 2500 are new students. Accredited programs operate in 35 states. Three programs have announced the intent to cease operations in 2017 and two programs with Candidacy status are seeking full accreditation.

Today's graduates are 63% female. White students make up approximately 71% of total graduates while African Americans constitute 16%, 11% are Hispanic Americans, Native Americans, and Asian Americans, and 2% identify themselves as from other backgrounds. Approximately 16% of graduates are related to someone in funeral service.

While average student age is not identified, in 2016, 47% of new enrollees were age 25 or less and 40% were ages 26-40. Twenty-eight percent of new students entered funeral service education with a high school education and 20% had a bachelor degree, Master's degree or higher upon matriculation. Thirty-three percent entered funeral service education with an associate degree or higher (but not a BA/BS).

The Future

The American Board of Funeral Service Education has experienced substantial change in the past decade. As the funeral service profession continues to evolve, new approaches will be reflected in the education of future students and ABFSE programs and institutions will continue to provide high quality education to students desiring to enter this important and respected profession.

Directory Information

The Directory on the following pages includes contact information and statistics beginning with the year 2014. The National Board Examination (NBE) is the licensing standard in most states. The test is administered in two parts – Arts and Sciences. A three-year average is used to evaluate NBE pass rates. Raw data for the most recent year is provided. The following explanations also apply:

- Total enrolled = all students currently enrolled in the funeral service/mortuary science program as reported by the program/institution.
- # of new students & # of grads indicates the number in the designated calendar year.
- Grad Rate = Graduation Rate
- Timely Grad = Timely graduation, defined as completion of the program in 1½ times designated program length.
- Employment data is based upon graduate responses. ‘No response’ falls in the not employed category. Employment is counted within 6 months of graduation.
- Overall % employed includes employment in any field, (not just funeral service) and continuing education.
- Employed in funeral service means employed in a funeral service related field within 6 months of graduation (or continuing education).
- Did not finish = left before completing the program.

For additional information see Standard 11.3.2 or contact the ABFSE Office.

The ABFSE Scholarship Program for Undergraduates is administered by this committee. It is responsible for awarding scholarships to currently enrolled and deserving undergraduate students.

All scholarship applications must be submitted using the on-line Scholarship Application Form available on the American Board of Funeral Service Education's website (<http://www.abfse.org/html/scholarship.html>).

The deadlines for all materials to be postmarked are March 1st and September 1st of each year.

This committee is responsible for planning programs and workshops and assisting with site selection for the annual meeting of ABFSE. They will also assist with summer workshop planning.

NATIONAL BOARD EXAM LIAISON COMMITTEE

# of Members	Title	Name	Term Expires
