

I have been working at the family owned Eckhardt Funeral Chapel, P.A. for almost two years. As of June, I have graduated from the Community College of Baltimore County with an A.A. in Mortuary Science, and I was also on the Dean's List. I have successfully passed both the Science and the Arts Section of the National Board Exam. My apprenticeship will be completed by October, when I am looking forward to being a licensed mortician at my current place of employment. I enjoy reading, gardening, and spending time with my family.
