| Is the institution regionally accredited?  | 49  | 9  |
| Does the institution offer any funeral service/mortuary science-related programs/diplomas that are not ABFSE Accredited?   | 18  | 40 |
| <b>Section 2 - Faculty and Staff Changes</b>   |     |    |
| Have there been any new program faculty or administrative staff added since the last annual report?  | 32  | 26 |
| Does the program employ any full-time faculty who have not earned a masters degree?  | 18  | 40 |
| <b>Section 2 - Other Program Changes</b>   |     |    |
| Have any significant budget changes (i.e. increases/decreases greater than 10%) occurred since the last annual report?   | 7   | 51 |
| Have there been significant changes in Student Enrollment since the the last annual report? (i.e. Is increase/decrease of Total Current Enrollment over Total Prior Enrollment, as entered above, greater than 10%?) | 31  | 27 |
| Have any changes been made in published philosophy and/or objectives of the program?   | 0   | 58 |
| Have any significant curricular changes been made during the past year?  | 8   | 50 |
| Have there been any major changes in the learning resources of the program during the past year?   | 4   | 54 |
| Have there been any major changes in the student personnel services provided by your institution during the past year?   | 9   | 49 |
| Have there been any major changes in the program's physical plant or equipment during the past year?   | 7   | 51 |

|   |    |    |
|---|----|----|
| Have there been any major changes in the organization, administration, control or departmental procedures during the past year? | 20 | 38 |
|---|----|----|

**Section 3 - Standards and Compliance**

|   |   |    |
|---|---|----|
| Have any adverse actions been taken against the program or sponsoring institution by another accrediting agency during the past year? | 1 | 57 |
|---|---|----|

|   |   |    |
|---|---|----|
| Has the program received any written student complaints since the last annual report was submitted? | 9 | 49 |
|---|---|----|

**Section 5 - Distance Education**

|   |    |    |
|---|----|----|
| Does your institution/program offer distance education courses? | 48 | 10 |
|---|----|----|

|  |  |  |
|--|--|--|
| Is a complete Degree offered via Distance Education? ( <i>Complete = 17   &gt;50% = 3   &lt;50% = 10</i> ) |  |  |
|--|--|--|

|   |    |    |
|---|----|----|
| Is Distance Education available only for General Education courses? | 18 | 36 |
|---|----|----|

|  |    |    |
|--|----|----|
| If Distance Ed is not offered or if for General Ed Only, are there plans to offer Distance Ed courses in the future? | 10 | 18 |
|--|----|----|

|  |    |   |
|--|----|---|
| Procedures acceptable to USDE are in place to confirm the identities of distance education students? | 30 | 0 |
|--|----|---|

# ABFSE Administration Reports

Program Year: 2021

Report Name: Student Outcomes - Statistics

Report Date: March 14, 2022

**Student Outcomes**  
(Total Complete Reports: 58)

| Institution  | Graduation Rate Calculation Method   | Num Grads | Grad Rate(%) | Placement Measurement Method   | Num Placemnt | Placemnt Rate(%) |
|--|--|-----------|--------------|--|--------------|------------------|
| Amarillo College   | Graduation rates are based on cohorts as suggested by the ABFSE. The cohort that had completed 50% of their curriculum and began working on the 2nd half of the required curriculum at the same time within that year. Based on when that time was, the student's would have 1.5 times (18 months) to complete the program. 7 graduates completed the last 50% of their curriculum within the expected 18 months, and 3 graduates completed the last 50% of their curriculum within 24-40 months creating a ___70%___ graduation rate.   | 7         | 70           | The program has an online survey for graduates and their employers to help our research and gathering data for program planning and improvement. When gathering information to send out the survey instruments, the graduates are contacted to collect employer name and contact information. In 2021, we had a total of 10 graduates, 7 of those were gainfully employed in the funeral service industry at the time of our inquiry. The job placement was 70%.   | 10           | 70               |
| American Academy<br>McAllister Institute<br>of Funeral Service | Currently, a student is considered to have graduated in a timely manner if they complete the program within three years of their respective start date.  | 26        | 30           | Currently, we gather data via surveys and follow-up surveys. Plans are beginning to develop for a more robust assessment, alumni communication and job placement process.  | 61           | 78               |
| American River<br>College                                      | The number of graduates/number of the enrolled cohort. Reported to ARC Workforce Development.  | 28        | 100          | The number of employed/the number in the cohort. Reported to the ARC Workforce Development.  | 28           | 93               |
| Arapahoe<br>Community<br>College                               | The Graduation Rate is calculated by the number of students that graduate in a specific cohort timeframe divided by the number of students that potentially would have graduated at that time.   | 32        | 91.4         | To calculate job placement, one would divide the number of students employed in Funeral Service by the total number of graduates.  | 32           | 78               |
| Arkansas State<br>University<br>Mountain Home                  | Graduates who complete the second half of the AAS-FUS degree (starting when they have 34 or more credit hours completed), who then complete all degree requirements within 150% of their normal time to completion (3 full 15-weeksemesters) are considered to have graduated on time. These data are reported to the Arkansas Department of Higher Education and IPEDS.   | 14        | 100          | ASUMH surveys all graduates and determines who has secured employment in their field. Additionally, those that have continued on to additional education and/or military service are included among the employed category. Those that are employed, but not in the field of study, or those that continue to seek employment are categorized as not employed in field. Graduates are evaluated 6 months following graduation, allowing them time to search and secure employment. These data are reported to the Arkansas Department of Higher Education, IPEDS, and Perkins Grant administration. | 14           | 86               |
| Cape Cod<br>Community<br>College                               | Graduation rate is calculated by dividing the number of students in a cohort by the number of graduates from that cohort. Students are tracked for the duration of their education. Upon admission to the program students must meet necessary criteria to remain in the program, upon formal admittance a student is tracked by their cohort. With the increase in part time students additional calculations are being made to accommodate this. If students are still in the program and actively taking classes they are not counted for or against the graduation rate until they withdraw or complete the program. The calculation is: Ne (Number of students from a cohort that enrolled and would be finishing during the year) / Nf (Number of students finishing program in current year) = Gr (Graduation rate). The graduation rate accounts for those that started but failed or withdrawn but were forecasted based on their full or part time status to complete their studies in the current year divided by the amount that finish. Students taking less classes at a time are forecasted further out (approx. 3 years) than students that are taking classes full time and would reach the completion of their studies in four semesters. Data is shared with the faculty and staff of the funeral program during their bi-annual assessment and planning meetings to use toward program improvement. The data is further announced at the advisory board meeting for members and administrators to receive this important information to use in decision-making and advisement. | 7         | 83.5         | Job placement/employment rate is calculated by dividing the number of students that are employed at the given time by the number of students who graduated from the program. This data is shared during the bi-annual assessment meeting of the program faculty and staff to assist in making programmatic improvement decisions. This data is provided during the advisory board meeting to the board and administration for purposes of supporting advice provided by the board.   | 7            | 71               |
| Carl Sandburg<br>College                                       | We look at the initial enrollment within the class and then look at the number of completions. These numbers are then reported to the Sate of Illinois and the ABFSE.  | 7         | 75           | We look at the number of graduates and compare it to the number who are gainfully employed in the profession.  | 8            | 75               |
| Chandler-Gilbert<br>Community                                  | Number of graduates 31 divided by the total number of students that started the program 35   | 31        | 89           | We reach out to students with employment surveys after graduation to ask if they were employed in funeral service. Number of those working in Funeral Service divided by the number of graduates   | 31           | 87               |

| College   |   |     |      |  |     |      |
|---|---|-----|------|--|-----|------|
| Cincinnati College of Mortuary Science              | The percentage of students completing the program of those who began in the same class. We exclude students who withdraw the first week of class. Reported to IPEDS and HLS.  | 46  | 89   | The percentage of graduates eligible for and seeking an apprenticeship who actually obtain one. Excludes those not willing to relocate, along with those pursuing additional education, another career or military service. Reported to HLC as employed if within 6 months of graduation.  | 47  | 92   |
| Columbus Technical College                          | To calculate the graduation rates for the program I consider the New Enrollees with a start date of at least 6 semesters as it is possible to have graduated in that amount of time (8 students). Then I remove students that are currently enrolled and attending part time (3 students). Then I divide the New Enrollee # (5) into the Graduate # (5) and get a graduation rate of 100%   | 4   | 100  | Job Placement rate is measured by the determining the number of graduates in the cohort (5 students) and this researching the employment status of each student (5 students employed in Funeral Home). Then I divide the number of employed graduates (5 students) by the number of CTC FSRV graduates (5 students) and the job placement rate is 100%.  | 5   | 100  |
| Commonwealth Institute of Funeral Service           | The rate is obtained by dividing the number of graduates (in the two yearly graduating cohorts) by the number of new students in the cohort who have completed 1/2 of the program length.   | 161 | 81   | The Texas Workforce Commission requires a completer survey to be filled out by each graduating student at the time of graduation. This form is used to verify a graduate's funeral service employment status. The total number of those employed in funeral service is divided by the total graduates.   | 162 | 66   |
| Community College of Baltimore County - Catonsville | Since CCBC offers an Associates degree, the ABFSE Standard states that students have 18 additional months to complete the MORS Program once they have completed 50 percent of their course work. Successful completion of MORS 101 Funeral Service Principles I is the benchmark that the MORS Program uses to determine that students have completed 50 percent of their degree which includes their general education courses per the ABFSE Standard. Thus, the MORS Program reports the students who have successfully completed MORS 101 Funeral Service Principles I for cohort tracking purposes and to report the cohort to the ABFSE in their annual report. Thus, the cohorts reported in the previous ABFSE annual reports are used to calculate graduation rates for the 2021 annual report. CCBC reported 14 graduates in 2021. Using the ABFSE previous annual report data, it was determined that 8 of the 14 graduates were reported 50% completed in the previous annual reports, 6 of the graduates took more than 18 months to graduate after completing 50% of their degree. Therefore 8 of the graduates completed their degrees within the 18 month window per Standard 11 and 6 graduates took longer than 18 months to complete their degree. The following formula is how CCBC calculates graduation rates, dividing 100 by 14 and multiplying the answer by 8 (100 divide by 14 multiplied by 4 = .57). Therefore, CCBCs graduation rate is 57%. | 8   | 57   | Per Standard 11, employment rates are calculated by using student data from 6 months of graduation who are employed in a funeral related field, entered the military, or are continuing their education. Since 14 students graduated from the Mortuary Science program in 2021, our base line is 14 graduates. Of the 14 graduates, 11 of the students are actively working in funeral service. Since 11 of the 14 graduates are working in funeral service, CCBC calculated their graduation rate by; dividing 100 by 14 and multiplying the answer by 11 (100 divide by 14 multiplied by 11 = .79). Therefore, the employment rate for CCBCs graduates is 79%. | 14  | 79   |
| Cypress College                                     | Number of graduates divided by the number of newly enrolled Mortuary Science students (same time period)  | 26  | 51   | Number of graduates employed within 6 months of graduation divided by the total number of graduates  | 35  | 0    |
| Dallas Institute of Funeral Service                 | Based on the enrollment and completion statistics - these are required by statute of Texas Workforce Commission(our state approval agency). These are completed annually 9-1 to 8-31. We use the ABFSE definition of graduation.  | 68  | 65   | Number of graduates employed in FS or FS-related, plus those that may be continuing their education divided by the number of graduates.  | 72  | 82   |
| Delgado Community College                           | When students complete 50% or more of the degree program they will be tracked to graduation for calculation of the timely graduation rate   | 7   | 78   | Graduates with employment within 6 months of graduation. Dean of Allied Health   | 9   | 89   |
| Des Moines Area Community College                   | We place students into Graduation cohorts when they reach the 50% mark of the program. We then measure which ones graduate in a timely manner and which ones graduate (whether or not within the timely manner time period.)  | 47  | 81   | During the final semester, we survey the soon-to-be graduates to determine who has an internship established. That number is divided by the number of graduates to determine our job placement rate.   | 53  | 94   |
| East Mississippi Community College                  | Graduation rates are calculated according to 10.3.2. Students who enroll in the fall term of their sophomore year (i.e., 50% of program) are tracked to graduation for calculation of the time to graduation rate. Graduation rates for the FST programs are submitted to Federal Perkins Reports, Mississippi Community College Board, National Student Clearinghouse, and Integrated Postsecondary Education Data System (IPEDS)  | 12  | 87   | Employment rates are calculated according to 10.3.3 and 10.1.2.e. Job placement was calculated within one month of each students graduation. the EMCC Funeral Service Technology Graduate Survey was used to gather employer responses from 3 FST graduates by August, 2021.   | 13  | 93   |
| Eastwick College                                    | We report graduation rates to the Accrediting Commission of Career Schools and Colleges (ACCSC). ACCSC requires that we report day and evening cohorts separately within specific start date time frames, which depend on program length. The cohorts for the 2021 Annual Report were 04.01.2017 - 03.30.2018 (day) and 12.01.2016 - 11.30.2017 (evening). The rates were 43% day, 40% evening (the average is included in the Graduation Rate box below), which met ACCSC's benchmark for programs of 24 months (day) and 27 months (evening). ACCSC uses the following formula to calculate graduation rates: Graduation Rate = A / (B - C + D - E), where: A = Graduates within 150% of program length, B = Number of students who started the program, C = Transfers to other programs, D = Transfer from other programs, and E = Students who were unavailable for graduation (death, incarceration, active military service deployment, or onset of medical condition).   | 9   | 42   | ACCSC uses the following formula: Placement Rate = A / (B - C - D), where: A = Graduates employed in the field, B = Graduates within 150% of program length, C = Graduates who pursued further education, and D = Graduates who were unavailable for employment (death, incarceration, active military service deployment, onset of medical condition, or visa ineligibility). The ACCSC placement rates for the reporting period were 80% day/100% evening (the ABFSE placement rate recorded below represents the rate for the graduating class included in this Annual Report).   | 10  | 100  |
| Fayetteville Technical Community College            | Out of 54 graduates, 48 enrolled in the initial FSE-prefixed courses and graduated within the 150% normal time frame to complete the degree.  | 48  | 88.9 | The number of graduates working divided by the number of graduates available to work equals the employment percentage rate.  | 54  | 75.9 |
| FINE Mortuary College                               | For the purpose of calculating graduation rates, students moving through the second half of the associate program will be considered to have graduated on time if they complete their degree in 18 months (6 semesters). For the purpose of this report, students are marked as halfway through the   | 18  | 78   | Students are provided a graduate data survey upon completion of degree requirements. FMC considers graduates employed if they fall into one of the following categories: employed in funeral service or funeral service  | 23  | 87   |

|   |   |    |       |   |    |      |
|---|---|----|-------|---|----|------|
|   | program once they have reached 33 or 35 credits (depending on how many credits the program was when they enrolled) and are considered "timely graduates" if they complete the remainder within 18 months.   |    |       | related field, active military, or enrolled in further higher education. (Third party verified).  |    |      |
| Florida State College at Jacksonville                   | Graduation rates are measured by cohorts. The formula that is used is as follows (N/C=G), "N" represents the number of students that graduated and the "C" represents the number of students that began in that particular cohort and the "G" represents the graduation rate.   | 7  | 100   | The calculation is made by taking the number of graduates employed divided by the number of graduates.  | 8  | 87.5 |
| Goodwin College   | Graduation rate is the percentage of students who complete the Funeral Services program within 6 semesters after they were enrolled in the program. Calculation: the number of graduates divided by the number of enrolled students.  | 10 | 100   | Job Placement/Employment Measurement: The Office of Institutional Effectiveness measures the job placement/employment rates each fiscal year (July 31-June 1). It is calculated: divide the number of placed in-field/related-field by the number of graduates (minus the number of students who were not contacted). We measure at 38% for the fiscal year and 88%.  | 11 | 88   |
| Gupton-Jones College of Funeral Service                 | Number of starts (Calendar year)/ number of withdrawals = graduation rate   | 61 | 87    | Number of graduates (calendar year)/ number of placement/employment (calendar year) = placement/employment rate   | 61 | 93   |
| Hudson Valley Community College                         | Previous calculations used the total number of students eligible due to fulfillment of academic requirements (NBE) compared to the actual Number of total enrollment for the cohort divided by total number of students that actually graduate from program. Calculations of those students who are eligible to graduate and divide actual graduates from enrollment.   | 4  | 67    | Total number of graduates which fulfill requirements. Those that successfully complete NBE vs. those that do not, total graduates divided by those registered with state residency internships.   | 18 | 77   |
| Ivy Tech Community College of Indiana - Central Indiana | Once a student is admitted to the selective mortuary science program, they have 1.5x the degree length to finish. This equals 4.5 semesters.  | 11 | 81    | Graduate surveys.   | 13 | 30   |
| Jefferson State Community College                       | The report will cover Fall 2020 to Spring 2021, no summer enrollment. The graduate rate is calculated by using Standard 10.3.2. The student moving through the second half of the AAS degree program who would be considered to have graduated on time if they completed their degree within 18 months vs. the number of students that completed the FSE Program over 18 months. 50% of the FSE Program is 33.5 hours, 67 hours total.  | 11 | 77    | Annually, the Institutional Effectiveness department conducts a job placement survey. However, our students are employed at a funeral home during their enrollment in the FSE Program and prior to graduation. The FSE Program counts program completion and six additional months toward job placement. Also note, if a student loses employment while in the FSE Program we sometimes will assist with new employment. Students has 3 weeks to find new employment to continue in FSE Program.  | 19 | 100  |
| John A Gupton College                                   | From the point a student completes 50% of the program (31 semester hours for AA; 30 semester hours for AAS), the student must complete the entire program within 1 1/2 times of the remaining length of the program. (3 semesters)  | 23 | 85    | The placement/employment rate for John A. Gupton College is calculated by the percentage of graduates working in funeral service or related field vs those who are not. This data is neither requested nor reported to another entity.  | 27 | 93   |
| John Tyler Community College                            | Once students complete the first year courses (General Education and Intro to Funeral Services, they formally apply for full admission to the program. Graduation rates are based on graduates that took 6 or fewer semesters to complete the program (150%)  | 37 | 100%  | At the end of the semester, graduating students are surveyed to determine whether they work in a funeral home. They are asked to provide contact information for their employer. Graduates are contacted after they graduate.   | 37 | 80%  |
| Kansas City Kansas Community College                    | Program coordinator tracks data on students who begin and complete the program. Students have three consecutive semesters to finish the program and be counted as a graduate. We divide the number who did finish by the number who should have finished in a calendar year. Ex: 17 should have graduated by but only 16 did therefore 16/17  | 16 | 94.12 | Data is collected from information communications with graduates, reports from employers, and information from the follow-up survey conducted for all KCKCC graduates by Institutional Effectiveness Any student who passes the NBE is employed in FS within 6mo is considered employed. We divide this by the number of graduates who passed the NBE and are seeking employment in FS. Ex 14 of 16 graduates are employed in FS and 2 are not therefore 14/16.   | 16 | 87.5 |
| Lake Washington Institute of Technology                 | We take the number of graduates and divide it by the number of students that hit the 50% mark of completion in the cohort. This is reported to the SBCTC.   | 14 | 88    | We divide the number of timely graduates in a cohort that are employed in funeral service or related fields by the total number of graduates. This is reported to the SBCTC.  | 16 | 75   |
| Malcolm X College                                       | Students moving through the second half of the program will be considered to graduate on time if they complete their degree within 1 1/2 times the program length.  | 3  | 100   | Employment within 6 months of graduation  | 3  | 100  |
| Mercer County Community College                         | This is based off of a three year rolling average. The number of total new enrollees, minus the number of graduates, from which an average is calculated.   | 30 | 71    | Students are required to secure employment at a funeral home to complete the program. Data are reported to the Advisory Commission and the Academic Division via the Dean.  | 34 | 100  |
| Miami Dade College                                      | To determine the Graduate Rate Percent the total number of graduates as indicated on the cohort tracking sheet was divided into the total number of students attempting the exit gatekeeper course FSE2930L - Professional Review. To determine Timely Graduation the total number of actual graduates for the calendar year is reviewed to determine the date they began the program to when they completed FSE2930L - Professional Review. Students who complete the program within 1 1/2 times the program length are divided into the total number of graduates | 17 | 75    | The Funeral Service Education Program program tracks students through graduate surveys, social media, employment surveys, personal interactions, & other notifications. The FSE program has ceased using the statistics reported by the Florida Education & Training Placement Information Program as of 2019 since it only tracks cohorts from seven years prior to the current calendar year and it does not represent a current job placement rate. The total number of graduates is compared to the total number of individuals working in Funeral service or a funeral related industry within 6 months of graduation. Students who continue their education, resume active duty in the military are removed from the total number of graduates. | 22 | 87   |
| Mid-America College of Funeral Service                  | One minus, graduates divided by total population  | 51 | 69    | Measurements are based on our student graduate information survey   | 51 | 88   |

|  |  |    |       |   |    |       |
|--|--|----|-------|---|----|-------|
| Milwaukee Area Technical College         | The graduation rate is calculated by dividing the number of graduates from the Funeral Service Program by the number of students enrolled at the start of the given cohort.  | 17 | 80    | Job placement is calculated by dividing the number of currently employed Funeral Service graduates by the number of total Funeral Service graduates in a given cohort.  | 17 | 100   |
| Mt. Hood Community College               | Take the students who graduated and divide by students who started the program as a 2nd year. Submitted to the college and the ABFSE.16/21.  | 15 | 76    | Take the students who we have verified employment with and divide by the number of graduates. The information is submitted to the ABFSE.13/16   | 16 | 81    |
| Nassau Community College                 | Graduation rate is calculated using a three (3) year or six (6) year completion of program for the evening program. For the evening program the student graduation rate is six (6) years or 12 semesters.  | 30 | 97    | Was the graduate employed just prior to graduation and did the employment continue after graduation from NCC. Total employed/total graduates.   | 31 | 87    |
| Northampton Community College            | The calculation is based on the enrollment of students in the original cohort vs. cohort graduates. The information is communicated with the divisional dean and vice president of academic affairs.   | 19 | 83    | The calculation is based on the number of graduates, vs. those employed in funeral service or related fields.   | 19 | 79    |
| Northeast Texas Community College        | Graduates of the A.A.S. in Funeral Service Education will be calculated by the successful completion of MRTS 1225-Thanatochemistry. This course was selected because it is a science course offered early in the student's educational experience (second semester), and enrollment in this course would indicate an interest in the A.A.S.degree. Graduates are tracked from MRTS 1225 course completion through to graduation. We do allow students the opportunity to transfer to a different cohort, should they fail a course or need to change their schedule. If a student leaves or doesn't enroll for future program courses and has completed MRTS 1225, they will be counted as a student who was dropped or has withdrawn from the program. Calculation of Graduation Rate: (Number of students successfully completing MRTS 1225) = X (Number of students entering from a different cohort) = Y (Number of students transferring to another cohort) = ZX + Y - Z = Tracking cohort (Number of students who withdrew or were dropped from the program) = A (X + Y - Z) - A = Graduates (Graduates / Tracking cohort) * 100 = Graduation Rate. Graduation rates are reported to the ABFSE and institutionally during our 5-year program review. | 15 | 94.74 | Employment rates are calculated using graduate surveys and personal communications. Calculating Job Placement: (Students that indicate employment in funeral service through surveys and/or personal communications) = B (B / number of Graduates) * 100 = % of graduates employed in funeral service. Job placement rates are reported to the ABFSE and institutionally during our 5-year program review.  | 15 | 93.33 |
| Northwest Mississippi Community College  | NWCC utilizes the number of students who meet the 50% benchmark of the curriculum versus those who actually graduate (versus withdrawing or changing majors).  | 7  | 90    | NWCC utilizes the number of graduates employed in funeral service at graduation or 6 months post graduation.  | 8  | 100   |
| Ogeechee Technical College               | Graduation rates are based on the use of student cohorts. An identifying course FSRV 1020 Funeral Service Law & Ethics is used to determine the cohort. Students are considered graduates once they have completed all the required coursework, regardless of their NBE status. The graduation rate is calculated in a calendar year (spring, summer, and fall). The calculation method for graduation rates is the number of graduates divided by the number of graduates and leavers. This method of calculation is consistent with the method of calculation used by the Technical College System of Georgia in determining a state-wide graduation rate and for calculating individual graduation rates for each technical college system. Additionally, due to the COVID-19 pandemic and the calculation change in Total Current Enrollment, the graduation rate percent has been significantly impacted.   | 8  | 71.4  | Job placement/employment rates are based upon the use of the same cohort mentioned previously. An identifying course is used to determine the number of students who are in funeral service majors. The calculation method is the number of graduates placed in the field divided by the number of graduates. This method of calculation is consistent with the method of calculation used by the Technical College System of Georgia in determining a state-wide placement rate and for calculating job placement rates for each technical college in the system.  | 8  | 88    |
| Piedmont Technical College               | The graduation rate is calculated based on the number of students who complete the program in 1.5 times per the DOE requirement. We evaluate the number of new enrollees and the graduates of who complete the program within 1.5 times during the calendar year.  | 20 | 74    | The job rate is calculated based on the number of students who gain employment within six months after graduation. We evaluate the number of graduates of who gain employment.  | 20 | 85    |
| Pittsburgh Institute of Mortuary Science | Calculation method is # of students who actually graduated divided by # of students in reported graduating cohort (cohort is considered to be students who make it to a point of 2/3 of the way through the program), which is published to ABFSE and PA DOE-PLS as well as our own website  | 64 | 100   | Surveys are conducted at completion with data reported manually for campus and provided in the LMS for online. Calculation method is # of students indicating employment divided by # of students in reporting cohort minus students fulfilling military obligation, unable to be contacted, as well as those continuing education (e.g. such as those seeking licensure in Ohio where bachelor degree is required). While most students continuing are vetted with the need to delay employment for licensure requirements, a decision has been made eliminate from calculations this year. Data shared with PA DOE-PLS and ABFSE as well as our website | 65 | 100   |
| Salt Lake Community College              | In accordance to ABFSE Standard 10.3.2, students are calculated in the graduation rate once they complete 34 credit hours of the program (50%of the total credit hours; end of second semester; Summer term). They are then tracked for completion of the program within the time allotted by ABFSE Standard 10. Once they have taken the NBE, confirmation is made with the registrar's office that the student has completed all necessary requirements for graduation. A percentage is calculated based on the enrollment numbers. Data is submitted to College administration, Institutional Research and to ABFSE.  | 13 | 93    | Graduate surveys are sent six months after graduation (November). Employment data received from the survey is used to calculate employment rate. A percentage of graduates indicating employment in funeral service is calculated based on the total number of graduates. Those continuing their education or enter military service are not calculated in the employment rate per ABFSE standards. Data is submitted to ABFSE, SLCC Institutional Research, and College administration.  | 13 | 100   |
| San Antonio College                      | Graduation rate is measured by the completion of the degree plan. The registrars office does an audit of the graduation applications.  | 23 | 100   | Graduates are employed in the funeral industry or are enrolled in a four year institution of higher education.  | 26 | 88    |
| Southern Illinois University             | We start counting the students when they reach their junior year in the program. We count those that drop out and divide the graduates by the ones that started their junior year to get the graduation rates.   | 0  | 84    | We survey all graduates 6 months after graduation to see if they are employed and in what field.  | 16 | 82    |
| Southwest                                | The graduation rate is calculated by the number of a cohort that graduate in a certain time period (2, 3, or 4 years). The   | 6  | 13    | Job placement rates are measures through a job placement survey. The formula for the job placement rate is the number   | 6  | 100   |

|  |   |     |     |   |     |     |
|--|---|-----|-----|---|-----|-----|
| Tennessee Community College                              | entities to which the data are submitted to be Southwest, SACS-COC and TBR.   |     |     | of students currently employed in funeral service divided by the number of students that graduated.   |     |     |
| St. Louis Community College                              | calculates the total number of new enrollees divided by those graduated from program.   | 12  | 79  | Calculates the total number of graduated divided by those that have declared employment. Those students who have not responded are included in the calculation.   | 12  | 58  |
| St. Petersburg College                                   | 16 graduated out of the 24 who finished the program in 1.5 yrs or less  | 16  | 66  | 23 are employed in funeral services serving their internships   | 24  | 96  |
| State University of New York at Canton                   | Graduation rates are calculated using the federal government's definition. First-time, full-time degree seeking freshmen in every year after 150% time has passed, determines the programs graduation rate. The numerator includes those students who completed the program on time or within the 150% time of the students start time in the program. The denominator includes all students from the original first-year student cohort. The FSAD programs graduation rate is measured from the time the student reaches 60 credit hours towards graduation. If the student starts as a freshman, then they have 6 years to graduate from the program. If a student starts as a Junior, they have 3 years to complete the program. This complies with federal and state Department of Education regulations. | 7   | 68  | The Program Director uses social media and personal contacts to place the graduates. Facebook and personal contact with the student, post-graduation, is used to assist the alumni with job placement, even after they receive their funeral directing license. The Program Director also provides a free NYS Funeral Directing Law webinar for alumni preparing to take their licensing exam. This aids in tracking the students employment in the funeral industry. | 8   | 88  |
| Tidewater Community College                              | The graduation rates for the AAS in Funeral Service are calculated using the following methodology. TCC Office of Institutional Effectiveness calculates graduation rates of selected programs. Two-year and three-year graduation rates are based on a cohort of students admitted in the program during a particular semester. They are identified by enrollment into the programs entry level courses (FNS 111, FNS 211, and FNS 231). All admitted students are included in a cohort, including both part and full-time students.   | 7   | 45  | Graduates and those who complete the program are followed for a period of one-year following completion of the program. If employment is obtained in a funeral service related field, or if the student is an active duty member of military service they are considered employed. This number is compared to the total number of graduates to rend a percentage of graduates employed.   | 10  | 80  |
| University of Arkansas Hope-Texarkana                    | At the end of the calendar year, the number of graduates is calculated and divided by the number of new enrollees for the fall semester of the previous year. This creates a cohort for that year. Graduation rates are submitted with the college data to state and federal Department of Education agencies.  | 9   | 75  | Graduates are surveyed approximately 6 months after graduation to determine if the graduate is employed in funeral service. The number of students employed in funeral services is divided by the number of graduates. This information is submitted to the Health Professions Dean and Vice Chancellor for Academics.  | 9   | 89  |
| University of Central Oklahoma                           | Current graduation rate is calculated using total enrollment for previous year report, subtracting students who left in current report year (based on ABFSE standard of only counting students who have completed 50% or more of the program) and dividing to get percentage of students staying on path to graduate. This data may be evaluated departmentally and shared at the college level. It is also available here and for interested parties on the website or through request to our office.  | 19  | 100 | Employment rates are measured by surveys and post-graduation correspondence. Rates are calculated soon after graduation. Students employed in a non-related field or not employed would be subtracted from graduate total for the year and the result is expressed as a percentage.   | 20  | 95  |
| University of Minnesota - Twin Cities Campus             | The Program's graduation percentage rate is calculated as follows: At the end of each calendar year, the total number of graduates (x) is divided by the number of graduates who completed their degree requirements within 1.5 times their program length (y), to determine the program's graduation rate (z), as follows $x/y=z$ . Note: for students who matriculate as juniors, 1.5 times program length is 36 months; for students who matriculate as sophomores, 1.5 times program length is 54 months. The Program does not matriculate freshman.  | 28  | 100 | The Program's employment percentage rate is calculated as follows: At the end of each calendar year, the total number of graduates (x) is divided by the number of graduates who secured employment in funeral service following graduation (y) to determine the Program's annual employment rate (z), as follows: $x/y=z$ .  | 28  | 100 |
| University of the District of Columbia Community College | Of the 6 students in our 2021 graduating cohort, all 6 successfully completed the program and graduated. $6/6 = 100\%$ . This data is submitted to the registrar's office.  | 6   | 100 | We keep in contact with our students and have employer surveys. $3/6 = 50\%$ .  | 6   | 50  |
| Vincennes University                                     | VU utilizes the IPEDS method for graduation calculation based on 150% of time to graduation. The VU FSE Program was set at 5 semesters for the 2021 graduates. The students would have needed to complete the program in 7.5 semesters or less.   | 14  | 87  | The VU FSE Program looks at the number of graduates who are employed in funeral service and compares that with those that are not employed in funeral service. A graduate survey is sent out within 6 months of graduation by the University's institutional research department and statistical information is collected from those surveys.   | 14  | 50  |
| Wayne State University                                   | The number of graduates from a cohort is divided by the total number of students who started the program in that cohort. Students continuing in the program, either by part-time status or to repeat a course, are not included in the calculation.   | 24  | 93  | Job placement is determined just prior to graduation. Students who do not report job placement prior to graduation are contacted again in January. The number of graduates employed is divided by the total number of graduates. Graduates not seeking employment are excluded from the calculation. Data is submitted to Advisory Committee as part of the assessment process.   | 27  | 100 |
| Worsham College of Mortuary Science                      | Worsham's campus program is 12 months, therefore, our new enrollees for 2020 become 2021 graduates. For the online program runs 16 months so depending on start date will determine the year of graduation.   | 104 | 87  | Prior to graduation, students are asked to complete a future employment form providing us contact information for their future employer. For those who have not yet found employment, we ask for electronic copies of their resumes so we can help put them in touch with potential openings. We also follow up with this pool of students 3 months after graduation.   | 104 | 88  |

## ABFSE Administration Reports

Program Year: 2021

Report Name: Job Placement/Employment

Report Date: March 14, 2022

**Job Placement/Employment**

*(Total Complete Reports: 58)*

Note: 'Not Employed' and 'No Info Available' were combined prior to 2016.
