ABFSE ADMINISTRATION REPORTS

Program Year: 2022

Report Name: Yes/No Questions - Summary

Report Date: April 06, 2023

Yes/No Questions - Summary		
(Total Complete Reports: 59)		

Section/Question	Yes	No
Section 1 - Accreditation Information		
Is the institution regionally accredited?	50	9
Does the institution offer any funeral service/mortuary science-related programs/diplomas that are not ABFSE Accredited?	19	40
Section 2 - Faculty and Staff Changes		
Have there been any new program faculty or administrative staff added since the last annual report?	36	23
Does the program employ any full-time faculty who have not earned a masters degree?	14	45
Section 2 - Other Program Changes		
Have any significant budget changes (i.e. increases/decreases greater than 10%) occurred since the last annual report?	8	51
Have there been significant changes in Student Enrollment since the the last annual report? (i.e. Is increase/decrease of Total Current Enrollment over Total Prior Enrollment, as entered above, greater than 10%?)	31	28
Have any changes been made in published philosophy and/or objectives of the program?	0	59
Have any significant curricular changes been made during the past year?	11	48
Have there been any major changes in the learning resources of the program during the past year?	9	50
Have there been any major changes in the student personnel services provided by your institution during the past year?	7	52
Have there been any major changes in the program's physical plant or equipment during the past year?	14	45
Have there been any major changes in the organization, administration, control or departmental procedures during the past year?	29	30
Section 3 - Standards and Compliance		
Have any adverse actions been taken against the program or sponsoring institution by another accrediting agency during the past year?	0	59
Has the program received any written student complaints since the last annual report was submitted?	14	45
Section 5 - Distance Education		
Does your institution/program offer distance education courses?	51	8
Is a complete Degree offered via Distance Education? *(Complete = 18 | >50% = 7 | <50% = 8)*		
Is Distance Education available only for General Education courses?	18	36
If Distance Ed is not offered or if for General Ed Only, are there plans to offer Distance Ed courses in the future?	9	17
Procedures acceptable to USDE are in place to confirm the identities of distance education students?	33	0

Report Date: April 06, 2023

	Student Outcomes						
	(Total Complete Reports: 59)						
Institution	**Graduation Rate Calculation Method**	**Num Grads**	**Grad Rate(%)**	**Placement Measurement Method**	**Num Placemt**	**Placemt Rate(%)**
Amarillo College	Measured by a percentage of those enrolled in the cohort.	3	100	Employee & graduate surveys	3	100
American Academy McAllister Institute of Funeral Service	Currently, a student is considered to have graduated in a timely manner if they complete the program in 3 years.	48	52	We continue to gather data via surveys, follow-up surveys, follow-up emails and phone calls. These allow us to gather the data but also assist recent graduates in searching for employment. If you eliminate the student not seeking employment and those who did not respond to multiple requests, AAMI's employment rate is 87%. Based on Standard 10, AAMI's employment rate is 79%.	92	79
American River College	The number of graduates/the number of the enrolled cohort. Reported to ARC Workforce Development.	35	100	The number of employed/the number in the cohort. Reported to ARC Workforce Development.	35	97
Arapahoe Community College	The graduation rate is calculated by those who enter a program full-time and graduate in 1 year (3 semesters), or those who enter part-time and graduate in 2 years. This data is calculated by myself for the program and then averaged.	41	95	These are tracked both at the time of graduation and in a follow-up survey 6 months later.	41	90
Arkansas State University Mountain Home	Graduates who complete the second half of the AAS-FUS degree (starting when they have 34 or more credithours completed), who then complete all degree requirements within 150% of their normal time to completion (3 full 15-week semesters) are considered to have graduated on time. These data are reported to the Arkansas Department of HigherEducation and IPEDS.	4	100	ASUMH surveys all graduates within 6 months after graduation and determines who has secured employment in their field. Additionally, those that have continued on to additional education and/or military service are included among the employed category. Those that are employed, but not in the field of study, or those that continue to seek employment are categorized as not employed in field. Graduates are evaluated 6 months following graduation, allowing them time to search and secure employment. These data are reported to the Arkansas Department of Higher Education, IPEDS, and Perkins Grant administration.	4	100
Brightpoint Community College	Once students complete the first year courses, General Education and Introduction to Funeral Services,they formally apply for full admission to the program. Graduation rates are based on graduates that took six of fewer semesters to complete the program (150%).	28	100	At the end of the semester, graduating students are surveyed to determine whether they work in a funeral home. They are asked to provide contact information for their employes. Graduates are contacted after they graduate.	29	100
Cape Cod Community College	Graduation rate reflects cohort graduation rate (% of students from original cohort completing in the designated year). Data submitted only to ABFSE	16	92	Job placement is calculated by the number of graduates that are employed in funeral service within 90 days graduation.	16	100
Carl Sandburg College	Graduation rates are calculated by taking the initial enrollment numbers of the class and compare that to the number of completions. These numbers are reported to the State of Illinois and the ABFSE.	8	100	Comparing the number of completers to the number that are gainfully employed in funeral service.	8	62
Chandler-Gilbert Community College	Number of Graduates divided by total number of program entrants 19/23	19	82.6	We send a separate email to graduates where they indicate if they are working in a funeral related field and where they are employed. 18/19	19	94.7
Cincinnati College of Mortuary Science	The percentage of students completing the program of those who began in the same cohort. We exclude students who withdraw the first week of class. Reported to IPEDS and HLC.	71	97	The percentage of graduates eligible for and seeking an apprenticeship who actually obtain one. Excludes those not willing to relocate, along with those pursuing additional education, another career or military service. Reported to HL as employed if within 6 months of graduation.	71	93
Columbus Technical College	To calculate the graduation rates for the program I consider the 2022 FSRV Enrolled Students with a start date of at least 6 semesters as it is possible to have graduated in that amount of time (6 students). Then I removed students that are currently enrolled and attending part time (5 students). Then I divide the 2022 FSRV Student Enrollment # (1) into the Graduate # (1) and get a graduation rate of 100%.	1	100%	Job Placement rate is measured by determining the number of graduates in the cohort (1 student) and then researching the employment status of each student. (1 student employed at Funeral Home). Then I divide the number of employed graduates (1 student) by the number of CTC FSRV graduates (1 student) and the job placement rate is 100%.	1	100
Commonwealth Institute of Funeral Service	The rate is obtained by dividing the number of graduates (in the two yearly graduating cohorts) by the number of new students in the cohort(s) that completed 1/2 of the program length.	134	87	The Texas Workforce Commission requires a completer survey to be filled out by each graduate at the time of graduation. This form is used to verify a graduate's employment status. The total number of those employed in funeral service is divided by the total graduates.	138	69
Community College of Baltimore County - Catonsville	For an Associates Degree, the ABFSE Standard states that students have 18 additional months to complete the MORS program once they have completed 50% of their course work. CCBC uses successful completion of MORS 101 (Funeral Service Principles I) as the benchmark to determine if students have completed 50% of their degree. Of the 21 graduates, 7	7	33	Per Standard 11, employment rates are calculated using student data taken 6 months after graduation. 21 students graduated in 2022, and 15 of these are actively working in funeral service. The employment rate is calculated as 15/21 or 71%	21	71

completed their studies within 18 months of finishing 50% of their degree; the other 14 took more than 18 months. CCBC's graduation rate is therefore 100/21 * 7 = 33%.

School	Graduation Calculation	#	%	Employment Calculation	#	%
Cypress College	Number of graduates divided by the number of newly enrolled Mortuary Science students (same time period)	26	51.6	Number of graduates employed within 6 months of graduation divided by the total number of graduates	33	78.8
Dallas Institute of Funeral Service	Based on the enrollment and completion statistics - these are required by statute of the Texas Workforce Commission (the state approval agency). These are completed annually September 1 through August 31. We follow the ABFSE graduation definition.	58	29	The number of graduates employed in Funeral Service or Funeral Service related occupations plus those that may be continuing their education divided by the number of graduates.	62	90
Delgado Community College	The number of graduates divided by the number of students in the program at 50% of the program requirements. Allied Health	16	80	Students employed 6 months after graduation. Allied Health	16	81
Des Moines Area Community College	Students are placed in 50% cohorts and we calculate how many of them graduate by the time they should have for timely graduation.	55	77	Through a Graduate Data Form, students list if they have a job or not, if they do, we ask them to include their preceptor's name and email to send out surveys.	68	93
East Mississippi Community College	Graduation rates are calculated according to 10.3.2. Students who enroll in the fall term of their sophomore year (i.e. 50% of the program) are tracked to graduation for calculation of the time to graduation rate. Graduation rates for the FST program are submitted to federal Perkins reports, Mississippi Community College Board, National Student Clearing House and integrated postsecondary education data syatem (IPEDS).	10	91	Employment rates are calculated according to 10.3.3 and 10.1.2.e. Job placement was calculated within one month of each student's graduation. The EMCC Funeral Service Technology graduate survey had no responses for 2022. Susan Baird, Director of Education and Institutional Effectiveness, resent a request for the surveys to be completed by the employers in late January, 2023.	10	80
Eastwick College	We report graduation rates to the Accrediting Commission of Career Schools and Colleges (ACCSC). ACCSC requires that we report day and evening cohorts separately within specific start date time frames, which depend on program length. The cohorts for the 2022 Annual Report were 04.01.2018 - 03.30.2019 (day). There were no students to report for the evening session. The graduation rate was 63%, which met ACCSC's benchmark for programs of 24 months. Graduation Rate = A / (B - C + D - E), where:A = Graduates within 150% of program lengthB = Number of students who started the programC = Transfers to other programsD = Transfer from other programsE = Students who were unavailable for graduation (death, incarceration, active military service deployment, or onset of medical condition)	11	63	ACCSC uses the following formula:Placement Rate = A / (B - C - D), where:A = Graduates employed in the fieldB = Graduates within 150% of program lengthC = Graduates who pursued further educationD = Graduates who were unavailable for employment death, incarceration, active military service deployment, onset of medical condition, or visa ineligibility)	12	92
Fayetteville Technical Community College	Out of 63 graduates of our AAS in Funeral Service Education . 55 Graduated timely within 1.5 times the length of the program or (9 Semesters)	55	87.3	52 Graduates indicated employment. 29 in Funeral Service and 23 in other non-Funeral Service field. Of employment 52 of 53 Graduates are working	63	82
FINE Mortuary College	For the purpose of calculating graduation rates, students moving through the second half of the associate program will be considered to have graduated on time if they complete their degree in 18 months (6 semesters). For the purpose of this report, students are marked as halfway through the program once they have reached 35 credits and are considered "timely graduates" if they complete the remainder within 18 months.	20	100	Students are provided a graduate data survey upon completion of degree requirements. FMC considers graduates employed if they fall into one of the following categories: employed in funeral service or funeral service related field, active military, or enrolled in further higher education. (Third party verified).	20	90
Florida State College at Jacksonville	Calculate the number of students eligible to graduate (does not include students who withdrew from the program before the end of 2022) divided by the number of students that actually did graduate.	7	62	We survey the graduates to evaluate their employment status and then calculate their employment status compared to the overall number in the class.	8	100
Goodwin College	Graduation rate is the percentage of students who complete the Funeral Services program within 6 semesters after they were enrolled in the program. Calculation: the number of graduates divided by the number of enrolled students.	16	86.7	Programmatically: Students and employers are surveyed after graduation; Institutionally: Students are surveyed 6 months after graduation	17	83
Gupton-Jones College of Funeral Service	Number of students who completed the program in 1.5 times the program's length divided by the number of students who entered the cohort.	48	84	Number of employed graduates divided by the number of total graduates.	56	56
Hudson Valley Community College	Calculations used previously- the total number of students eligible for graduation- due to fulfillment of all academic requirements compared to the actual number of total enrollment for the cohort divided by total number of students that actually graduate (fulfill requirements) from the program. Calculations of those students who are eligible to graduate and divide by actual graduates from enrollment/ Catalog year.	9	67	Total number of graduates which fulfill all requirements. amount who sucessfully complete the NBE vs. those that do not take/pass. Total # graduates registered with state residency/licensing board. NY/VT/MA boards	12	66
Ivy Tech Community College of Indiana - Central Indiana	Once a student is admitted to the selective admission mortuary science. they have 1.5 times degree length to finish their degree. This equates to 4.5 semesters (with the use of 8-week courses).	0	0	This metric is measured by the number of graduates indicating they have found employment within six months of graduation divided by the number of graduates	0	0
Jefferson State Community College	The report will covers Fall 2021 to Spring 2022, no summer enrollment. The graduate rate is calculated by using Standard 10.3.2. The student moving through the second half of the A.A.S. degree program who would be considered to have graduated on time if they completed their degree within 18 months vs. the number of students that completed the FSE Program over 18 months. 50% of the FSE Program is 33.5 hours, 67 hour total.	14	94	Annually, the Institutional Effectiveness department conducts a job placement survey. However, our students are employed at a funeral home during their enrollment in the FSE Program and prior to graduation. The FSE Program counts program completion and six additional months toward job placement. Also note, if a student loses employment while in the FSE Program we sometimes will assist with new employment. Students has 3 weeks to find new employment to continue in FSE Program.	28	100
John A Gupton College	From the point a student completes 50% of their program (31 semester hours for Associate of Arts Degree/30 semester hours for Associate of Applied Science Degree), the student must complete the entire program within 1 1/2 times the remaining length of the program. (3 semesters)	23	61	The placement/employment rate for John A. Gupton College is calculated by the percentage of graduates working in funeral service or related field versus those who are not working in funeral service or related field.	38	100
Kansas City Kansas Community College	Program coordinator tracks the data on students who begin and complete the program, students have three consecutive semesters to finish the program and be counted as a graduate. We divide the number who did finish by the number who should have finished.	23	95%	Data is collected from information communication with graduates, reports from employers, and information from follow-up survey conducted for all KCKCC graduates by Institutional Effectiveness. We divide the total grads with the total students who are employed in funeral service.	23	95
Lake Washington Institute of Technology	The number of graduates is divided by the number of students in the cohort that hit the 50 % completion mark. This is reported to the ABFSE and the SBCTC.	12	86	The number of timely graduates in a cohort employed in funeral service or a related field is divided by the total number of graduates. This is reported to the ABFSE and the SBCTC.	12	92

College	10.3.2 Graduation rates			10.3.3 Employment rates		
Malcolm X College	10.3.2 Graduation rates: New Enrollees will be reported as a cohort when they enter the accredited program and tracked to graduation. The graduation rate was determined by the students that were conferred a degree in Semester 7 out of the students that entered the program in Semester 4.	16	50	10.3.3 Employment rates: Job placement was calculated within six months of each students graduation. A survey done at graduation will be accepted as within 6 months. Students for whom no data was available was considered not employed. Funeral service-related employment, active military duty, or enrollment in further higher education counted as employment for this calculation. The surveys were submitted electronically and via phone. The electronic surveys were submitted to the Institutional Effectiveness Department and the phone surveys were completed by the Program Director.	18	67
Mercer County Community College	This is based off of a three year rolling average. The number of total new enrollees, minus the number of graduates, from which an average is calculated.	32	73	Students are required to secure employment at a funeral home to complete the program. Data are reported to the Advisory Commission and the Academic Division via the Dean.	32	100
Miami Dade College	To determine the Graduate Rate Percent the total number of graduates as indicated on the cohort tracking sheet was divided into the total number of students attempting the exit gatekeeper course FSE2930L - Professional Review.To determine Timely Graduation the total number of actual graduates for the calendar year is reviewed to determine the date they began the program to when they completed FSE2930L - Professional Review. Students who complete the program within 1 1/2 times the program length are divided into the total number of graduates	21	68.75	The Funeral Service Education Program program tracks students through graduate surveys, social media,employment surveys, personal interactions,& other notifications. The FSE program has ceased using the statistics reported by the Florida Education & Training Placement Information Programas of 2019 since it only tracks cohorts from seven years prior to the current calendar year and it does not represent a current job placement rate.The total number of graduates is compared to the total number of individuals working in Funeral service or a funeral related industry within 6months of graduation. Students who continue their education, resume active duty in the military are removed from the total number of graduates.	22	69
Mid-America College of Funeral Service	One minus, graduates divided by total population.	15	90	Measurements are based on our student graduate information survey.	32	89%
Milwaukee Area Technical College	The graduation rate is calculated by dividing the number of graduates from the Funeral Service Program by the number of students enrolled at the start of the given cohort. This data is reported to the ABFSE.	19	100	Job placement is calculated by dividing the number of currently employed Funeral Service graduates by the number of total Funeral Service graduates in a given cohort. This data is reported to the ABFSE.	20	95
Mt. Hood Community College	Take Students who graduated and divide by students who started the program as a second year. Submitted to the college and ABFSE. 22/24	22	91%	Take the students who have verified employment and divide by the number of graduates. The information is submitted to the ABFSE. 19/22	22	86%
Nassau Community College	Students that graduate in a timely manner. This is defined and 1 1/2 academic years of the program length.	11	85	A graduate is considered working if they are employed in a funeral service position in a funeral home. This information is published to WebEditor to be published on NCC Mortuary Science Website and the ABFSE website. In our most recent graduating class 77% (10/13) are working in a funeral service position	13	77
North Shore Community College	The annual graduation rate is calculated by dividing the number of graduates in an academic year by the total number of those admitted from the graduates cohort year(s), minus the number of students still enrolled in the program from the respective cohort(s) and minus the number of previous graduates from the cohort(s), if any.	2	100	Graduate employment status is gathered through the mandatory completion of a graduate survey. Graduates who indicate they are directly employed in funeral service, employed in a funeral service-related field, are active military or are continuing on to further higher education are marked as employed. The total number of employed graduates is divided by the total number of graduates for that year to determine the respective employment rate.	2	100
Northampton Community College	The calculation is based on the enrollment of students in the original cohort vs. cohort graduates. The information is communicated with the Dean of the School of Health Sciences and Education and the Vice President of academic affairs.	13	87	The calculation is based on the number of graduates, vs. those employed in funeral service or related fields.	13	62
Northeast Texas Community College	Graduates of the A.A.S. in Funeral Service Education will be calculated by the successful completion of MRTS 1225-Thantochemistry. This course was selected because it is a science course offered early in the student's educational experience (second semester), and enrollment in this course would indicate an interest in the A.A.S. degree. Graduates are tracked from MRTS 1225 course completion through to graduation. We do allow students the opportunity to transfer to a different cohort, should they fail a course or need to change their schedule. If a student leaves or doesn't enroll for future program courses and has completed MRTS 1225, they will be counted as a student who was dropped or has withdrawn from the program. Calculation of Graduation Rate: (Number of students successfully completing MRTS 1225) = X (Number of students entering from a different cohort) = Y(Number of students transferring to another cohort) = ZX + Y - Z = Tracking cohort (Number of students who withdrew or were dropped from the program) = A (X + Y - Z) - A = Graduates (Graduates/Tracking cohort) * 100 = Graduation Rate. Graduation rates are reported to the ABFSE and institutionally during our 5-year program review.	22	89.2	Employment rates are calculated using graduate surveys and personal communications. Calculating Job Placement: (Students that indicate employment in funeral service through surveys and/or personal communications) = B (B / number of Graduates)* 100 =%of graduates employed in funeral service. Job placement rates are reported to the ABFSE and institutionally during our 5-year program review.	25	96
Northwest Mississippi Community College	NWCC utilizes the number of students who meet the 50% benchmark of the curriculum versus those who actually graduate (versus withdrawing or changing majors).	6	80	NWCC utilizes the number of graduates employed in funeral service at graduation or 6 months post-graduation.	8	88
Ogeechee Technical College	Graduation rates are based on the use of student cohorts. An identifying course FSRV 1020 Funeral Service Law & Ethics is used to determine the cohort. Students are considered graduates once they have completed all the required coursework, regardless of their NBE status. The graduation rate is calculated in a calendar year (spring, summer, and fall). The calculation method for graduation rates is the number of graduates divided by the number of graduates and leavers. This method of calculation is consistent with the method of calculation used by the Technical College System of Georgia in determining a statewide graduation rate and for calculating individual graduation rates for each technical college system.	13	93	Job placement/employment rates are based on the use of the same cohort mentioned previously. An identifying course is used to determine the number of students who are in funeral service majors. The calculation method is the number of graduates placed in the field divided by the number of graduates. Graduates identified as 'Continuing Education' are excluded from the denominator. This method of calculation is consistent with the method of calculation used by the Technical College System of Georgia in determining a state-wide placement rate and for calculating job placement rates for each technical college in the system.	14	84.6

Institution	Graduation Rate Method			Job Placement Rate Method		
Piedmont Technical College	The graduation rate is calculated based on the number of students who complete the program in 1.5 times per the DOE requirement. We evaluate the number of new enrollees and the graduates who complete the program within 1.5 times during the calendar year.	22	73	The job placement rate is calculated based on the number of students who gain employment within six months after graduation.	23	77
Pittsburgh Institute of Mortuary Science	Calculation method is # of students who graduated divided by # of student in reported graduating cohort, which is published to College Navigator.	62	73	Surveys are conducted at completion with data reported using manual as well as virtual collection methods via the LMS and other statistical tabulation programs. Calculation method is # of students indicating employment divided by # of students in reporting cohort minus students fulfilling military obligations, unable to be contacted, as well as those continuing their education (e.g. such as those seeking licensure in Ohio where bachelors degree is required). This practical is typical due to the fact that students continuing their education generally need to delay their employment (e.g. internship) as it would conflict with licensing requirements. Data is shared with PA DOE-PLS and ABFSE.	64	100
Salt Lake Community College	In accordance to ABFSE Standards students are calculated in the graduation rate once they complete 34 credit hours of the program (50% of the total program credit hours; end of second semester; Summer term). They are then tracked for program completion. Once they have taken the NBE, confirmation is made with the graduation office that the student has completed all necessary requirements for graduation. A percentage is calculated based on enrollment numbers. Data is submitted to college administration, college institutional research and to ABFSE.	14	94	Graduate surveys are sent six months after graduation (November). Employment data received from the survey is used to calculate employment rate. A percentage of graduates indicating employment in funeral service is calculated based on the total number of graduates. Those continuing their education or enter military service are not calculated in the employment rate per ABFSE standards. Data is submitted to ABFSE, college institutional research, and college administration.	14	79
San Antonio College	Completing the degree plan (60 SCH) measures the graduation rate in the Mortuary Science Program at San Antonio College. Mortuary Science faculty advisors, academic advisors, and the Registrar's Office conduct academic audits for all students applying for graduation. Additionally, the College's Integrated Planning and Performance Offices track all graduates of San Antonio College.	8	100	We measure the job placement and employment rates based on the graduates in practice or enrolled in a four-year institution seeking a bachelor's degree per the Texas Higher Education Coordinating Board.	16	75
Southern Illinois University	We start counting students when they start their junior year for purposes of graduation rates. We take those that finished and graduated and divide that by the number that started to get the graduation rate. This data is submitted to assessment department on campus and used for recruitment purposes as well.	16	95	Job placement/employment is figured by reaching out to the graduates 6 months after graduating and seeing where they are working and in what field. We divide those employed in funeral service by those total number of graduates. This is shared with ABFSE and shared to the webpage for recruitment.	16	82
Southwest Tennessee Community College	The graduation rate is calculated by the number of cohort that graduate in a certain time period (2,3, or 4 years). The entities to which the data are submitted to be Southwest, SACS-COC and TBR.	2	29	Job placement rates are measures through a job placement survey. The formula for the job placement rate is the number of students currently employed in funeral service divided by the number of students that graduated.	2	100
St. Louis Community College	The graduation rate is calculated by dividing the number of graduates by the total number of new enrollees.	13	100	The job placement rate is calculated by dividing the number of employed by the total number of students.	13	69
St. Petersburg College	15 out of 26 graduated within the 1.5 years after reaching the halfway point of the curriculum	15	58	graduate surveys are used to measure employment They are reported to the Program Director	26	100
State University of New York at Canton	Graduation rates are calculated using the federal government definition. First-time, full-time, degree-seeking freshmen in every fall are observed after 150% time has passed to determine the programs graduation rate. The numerator includes those students who completed any degree within 150% of the programs stated time to complete, and the denominator includes all students from the original first-year student cohort who are still living. Because most of the students who enter into the FSAD program come to SUNY Canton with prior credits, most don't fit this measurement. The FSAD program calculates the graduation rate from students who have earned greater than 60 credits and finish the program within 150% from that period of time.	13	100	Job placement rates are calculated using data from a locally administered survey of graduates. This survey is sent to all graduates six months after they complete the program, and includes questions related to their current placement information and their satisfaction with the program. The job placement rate is calculated using the total number of survey respondents who responded that they are employed divided by the total number of survey respondents. The FSAD Program Director personally contacts each graduate in order to determine their job placement post-graduation.	13	85
Tidewater Community College	Graduation rates for the AAS- Funeral Service are calculated using the following methodology. TCC Office of Institutional Effectiveness calculates graduation rates of selected programs. Two-year and three-year rates are based on a cohort of students admitted in the program during a particular semester: Students are identified by enrolling in entry level courses. All admitted students are in a cohort including both full and part time students	10	66	Graduates are tracked for a period of one-year following graduation. If a student graduates with a FNS job or obtains one within that period they are considered employed.	15	100
University of Arkansas Hope-Texarkana	At the end of the calendar year, the number of graduates from a cohort is divided by the total number of students that started the program in that cohort. Graduation rates are submitted with the college data to state and federal Department of Education agencies.	12	48	Graduates are surveyed approximately 6 months after graduation to determine if the graduate is employed in funeral service. The number of students employed in funeral services is divided by the number of graduates. This information is submitted to the Health Professions Dean and Vice Chancellor for Academics.	12	100
University of Central Oklahoma	Current graduation rate is calculated using total enrollment for previous year report, subtracting students who left in current year report (based on ABFSE standard of only counting students who have completed 50% or more of the program) and dividing to get percentage of students staying on path to graduate. This data may be evaluated departmentally and shared at the college level. It is also available here and for interested parties on the website or through request to our office. General data for the institution is also available publicly on the University IR Data Dashboard.	18	99	Employment rates are measured by surveys and post-graduation correspondence. Rates are calculated soon after graduation. Students employed in non-related field or not employed would be subtracted from graduate total for the year and the result is expressed as a percentage.	21	100
University of Minnesota - Twin Cities Campus	The Program's graduation percentage rate is calculated as follows: At the end of each calendar year, the total number of graduates (x) is divided by the number of graduates who completed their degree requirements within 1.5 times their program length (y), to determine the program's graduation rate (z), as follows x/ y=z. Note: for students who matriculate as juniors, 1.5 times program length is 36 months; for students who	26	100	The Program's employment percentage rate is calculated as follows: At the end of each calendar year, the total number of graduates (x) is divided by the number of graduates who secured employment in funeral service following graduation (y) to determine the Program's annual employment rate (z), as follows: x/ y=z.	26	100

matriculate as sophomores, 1.5 times program length is 54 months. The Program does not matriculate freshman.

University of the District of Columbia Community College	Of the 5 students in our 2022 graduating cohort, all 5 successfully completed the program and graduated. 5/5 = 100%. This data is submitted to the registrar's office.	5	100	We keep in contact with our students and have employer surveys. 1/5 = 20% are employed in Funeral Service.	5	100
Vincennes University	VU utilizes the IPEDS method for graduation calculation based on 150% of time to graduation. The VU FSE Program was set at 5 semesters for the 2022 graduates. The students would have needed to complete the program in 7.5 semesters or less.	17	100	After the students graduate, VU sends out a graduate survey. That survey asks if the student is working and, if yes, where. We take the information that we receive, if the students respond, and figure up those working in a funeral home compared to those who are not.	17	41.2
Wayne State University	The number of graduates from a cohort is divided by the total number of students who started the program in that cohort. Students continuing in the program, either by part-time status or to repeat a course, are not included in the calculation.	21	92	Job placement is determined just prior to graduation. Students who do not report job placement prior to graduation are contacted again in January. The number of graduates employed is divided by the total number of graduates. Graduates not seeking employment are excluded from the calculation. Data is submitted to Advisory Committee as part of the assessment process.	22	95
Worsham College of Mortuary Science	Worsham College's campus program is 12 months, therefore, our new enrollees for 2021 become 2022 graduates. The online program is 16 months in duration so depending on start date will determine the year of graduation.	106	93	Surveys are sent to recent graduates (within two months of completing the program) seeking their input on their current or future job prospects. This survey allows the college to capture the student's supervisor contact information for additional feedback on student progress and job comprehension.	106	89
