ABFSE Administration Reports #1: School Information

Program Year: 2024

Report Name: School Information

Report Date: March 21, 2025

School Information
(Total Complete Reports: 58)

Institution	Purpose	Type	Course Basis	Embalming Facility	Embalming Location	Admission Policy	Merch Space	Class Space
American Academy McAllister Institute of Funeral Service	Single Purpose	Private - Not-For-Profit	Semester hours	Demonstration only	In funeral homes	Open door	Yes	Yes
American River College	Multi Purpose	Public	Semester hours	Demonstration only	In funeral homes, Other	Via separate application	Yes	Yes
Arapahoe Community College	Multi Purpose	Public	Semester hours	Demonstration only	Other	Via separate application	No	Yes
Arkansas State University Mountain Home	Multi Purpose	Public	Semester hours	Demonstration only	In funeral homes	Via separate application	Yes	Yes
Brightpoint Community College	Multi Purpose	Public	Semester hours	Fully functional	On campus, In funeral homes	Open door	Yes	Yes
Cape Cod Community College	Multi Purpose	Public	Semester hours	Fully functional	In funeral homes	Open door	Yes	Yes
Carl Sandburg College	Multi Purpose	Public	Semester hours	Fully functional	In funeral homes	Via separate application	No	Yes
Chandler-Gilbert Community College	Multi Purpose	Public	Semester hours	Fully functional	In funeral homes	Via separate application	Yes	Yes
Cincinnati College of Mortuary Science	Single Purpose	Private - Not-For-Profit	Semester hours	Fully functional	On campus	Via pre-requisite courses	Yes	Yes
Columbus Technical College	Multi Purpose	Public	Semester hours	Demonstration only	In funeral homes	Open door	Yes	Yes
Commonwealth Institute of Funeral Service	Single Purpose	Private - Not-For-Profit	Quarter hours	Fully functional	On campus, In funeral homes	Open door	Yes	Yes
Community College of Baltimore County - Catonsville	Multi Purpose	Public	Semester hours	Demonstration only	Other	Via separate application	Yes	Yes
Cypress College	Multi Purpose	Public	Semester hours	Fully functional	On campus, In funeral homes, Other	Via separate application	Yes	Yes
Dallas Institute of Funeral Service	Single Purpose	Private - Not-For-Profit	Quarter hours	Fully functional	On campus, In funeral homes, Other	Via separate application	Yes	Yes
Delgado Community College	Multi Purpose	Public	Semester hours	Demonstration only	In funeral homes	Via separate application	Yes	Yes
Des Moines Area Community College	Multi Purpose	Public	Semester hours	Fully functional	In funeral homes	Via pre-requisite courses	Yes	Yes
East Mississippi Community College	Multi Purpose	Public	Semester hours	Demonstration only	In funeral homes	Open door	Yes	Yes
Eastwick College	Multi Purpose	Private - Proprietary	Quarter hours	Demonstration only	In funeral homes	Via separate application	No	Yes
Fayetteville Technical Community College	Multi Purpose	Public	Semester hours	Fully functional	On campus, In funeral homes	Via pre-requisite courses	Yes	Yes
FINE Mortuary College	Single Purpose	Private - Proprietary	Semester hours	Demonstration only	In funeral homes	Open door	No	Yes
Florida State College at Jacksonville	Multi Purpose	Public	Semester hours	Fully functional	On campus, In funeral homes	Via separate application	Yes	Yes
Goodwin University	Multi Purpose	Private - Not-For-Profit	Semester hours	Demonstration only	In funeral homes, Other	Via separate application	Yes	Yes
Gupton-Jones College of Funeral Service	Single Purpose	Private - Not-For-Profit	Quarter hours	Fully functional	On campus, In funeral homes, Other	Via separate application	Yes	Yes
Hudson Valley Community College	Multi Purpose	Public	Semester hours	Fully functional	On campus	Via pre-requisite courses	Yes	Class
Ivy Tech Community College of Indiana - Central Indiana	Multi Purpose	Public	Semester hours	Demonstration only	In funeral homes	Via pre-requisite courses	Yes	Yes
Jefferson State Community College	Multi Purpose	Public	Semester hours	Demonstration only	In funeral homes	Via separate application	Yes	Yes
John A Gupton College	Single Purpose	Private - Not-For-Profit	Semester hours	Fully functional	On campus, In funeral homes	Open door	Yes	Yes
Kansas City Kansas Community College	Multi Purpose	Public	Semester hours	Demonstration only	In funeral homes	Via pre-requisite courses	Yes	Yes
Lake Washington Institute of Technology	Multi Purpose	Public	Quarter hours	Fully functional	On campus	Via pre-requisite courses	Yes	Yes
Malcolm X College	Multi Purpose	Public	Semester hours	Demonstration only	Other	Via separate application	Yes	Yes

#2: Yes/No Questions - summary

ABFSE ADMINISTRATION REPORTS

Program Year: 2024

Report Name: Yes/No Questions - Summary

Report Date: March 21, 2025

Yes/No Questions - Summary
(Total Complete Reports: 58)

Section/Question	Yes	No
Section 1 - Accreditation Information		
Is the institution regionally accredited?	49	9
Does the institution offer any funeral service/mortuary science-related programs/diplomas that are not ABFSE Accredited?	19	39
Section 2 - Faculty and Staff Changes		
Have there been any new program faculty or administrative staff added since the last annual report?	28	30
Does the program employ any full-time faculty who have not earned a masters degree?	21	37
Section 2 - Other Program Changes		
Have any significant budget changes since the last annual report?	8	50
Have there been significant changes in Student Enrollment since the the last annual report? (i.e. Is increase/decrease of Total Current Enrollment over Total Prior Enrollment, as entered above, greater than 10%?)	29	29
Have any changes been made in published philosophy and/or objectives of the program?	1	57
Have any significant curricular changes been made during the past year?	8	50
Have there been any major changes in the learning resources of the program during the past year?	2	56
Have there been any major changes in the student personnel services provided by your institution during the past year?	5	53
Have there been any major changes in the program's physical plant or equipment during the past year?	6	52
Have there been any major changes in the organization, administration, control or departmental procedures during the past year?	19	39
Section 3 - Standards and Compliance		
Have any adverse actions been taken against the program or sponsoring institution by another accrediting agency during the past year?	2	56
Has the program received any written student complaints since the last annual report was submitted?	10	48
Section 5 - Distance Education		
Does your institution/program offer distance education courses?	42	16
Is a complete Degree offered via Distance Education? *(Complete = 20 | >50% = 6 | <50% = 6)*		
Is Distance Education available only for General Education courses?	10	32
If Distance Ed is not offered or if for General Ed Only, are there plans to offer Distance Ed courses in the future?	4	22
Procedures acceptable to USDE are in place to confirm the identities of distance education students?	32	0

#8: Non-ABFSE Accredited Programs Offered

ABFSE ADMINISTRATION REPORTS

Program Year: 2024

Report Name: Non-ABFSE Accredited Programs

Report Date: March 21, 2025

Non-ABFSE Accredited Programs *(Total Number of Schools: 58)* 'Yes' answers only				
School	**Non Accredited**	**New Enrollees**	**Graduates**	**Programs/Diplomas**
Arkansas State University Mountain Home	Yes	8	7	Technical Certificate in Funeral Directing
Brightpoint Community College	Yes	14	12	Associate of Applied Science in Funeral Services - Funeral Director Major
Cape Cod Community College	Yes	6	1	Celebrant Certificate, Bereavement Certificate, Funeral Administrant Certificate, Embalming Certificate
Commonwealth Institute of Funeral Service	Yes	63	31	Certificate in Funeral Directing
Dallas Institute of Funeral Service	Yes	43	13	Funeral Director's Program, Funeral Director's Program Online
Delgado Community College	Yes	20	10	Certificate of Technical Studies in Funeral Service
Fayetteville Technical Community College	Yes	45	61	N.C. Funeral Director Diploma
Florida State College at Jacksonville	Yes	8	8	Florida Funeral Director (Advanced Technical Certificate)
Jefferson State Community College	Yes	13	14	Short Term Certificate (STC) Funeral Service Education - 27 Hours & Advanced Certificate (CER) Funeral Service Education - 30 Hours
John A Gupton College	Yes	21	17	Funeral Director Certificate
Lake Washington Institute of Technology	Yes	10	0	Funeral Directing and Management, AAS
Miami Dade College	Yes	7	1	College Credit Certificate in Florida Funeral Director
Mid-America College of Funeral Service	Yes	17	10	Funeral Directors Certificate, Certificate in Thanatology for End-of-Life Professionals, Certificate in Death Companioning for End-of-Life Professionals, Green Burial Council Certificate of Proficiency in Green Funeral Service
Northeast Texas Community College	Yes	175	51	Certificate II in Funeral Service Certificate II in Embalming
Piedmont Technical College	Yes	69	50	Funeral Director's Certificate, Embalmer's Certificate
San Antonio College	Yes	18	10	CLII - Funeral Director Certificate Level II
St. Petersburg College	Yes	15	12	Certificate in Funeral Arts
Tidewater Community College	Yes	19	5	AAS - Funeral Directing
University of Arkansas Hope-Texarkana	Yes	0	0	Certificate of Proficiency in Funeral Directing, Technical Certificate in Funeral Directing
Totals	**Y=19**	**571**	**313**

#20: Graduation & Job Placement

ABFSE Administration Reports

Program Year: 2024

Report Name: Student Outcomes - Statistics

Report Date: March 21, 2025

Student Outcomes (Total Complete Reports: 58)						
Institution	**Graduation Rate Calculation Method**	**Num Grads**	**Grad Rate(%)**	**Placement Measurement Method**	**Num Placemt**	**Placemt Rate(%)**
American Academy McAllister Institute of Funeral Service	A student has graduated in a timely manner if they complete the program within three years. Each semester, AAMI utilizes this list of graduates to determine if those students have completed the program in a timely fashion.	43	58.1	We are consistently attempting to gather data via surveys at the time of graduation, follow-up surveys, emails and phone calls. This allows us to gather data necessary for the annual report but to also focus on job placement for those graduates in need. If a graduate is employed ,funeral service related or not, they are counted as being employed. We received responses from 72 of the 74 graduates. 65 are employed. Seven are unemployed. We do not have employment data on two of the graduates. 90% of those who responded are employed.	74	88
American River College	The number of graduates/the number of the enrolled cohort. Reported to ARC Workforce Development.	29	100	The number of employed/the number in the cohort. Reported to ARC Workforce Development.	29	100
Arapahoe Community College	Students must complete all program courses to graduate. The data is calculated and provided by the institution's records office.	46	98	Students must submit an exit survey at the time of graduation which captures employment information.	47	94
Arkansas State University Mountain Home	Graduation: Cohorts are admitted into Spring semesters which begin in January. Any student enrolled in program classes as of the 11-day enrollment/participation count is considered to have begun the program as of the first day of that semester (mid-January each year). The number of members of a cohort which graduate by the end of the calendar following their admission, divided by the new enrollees for that cohort equals the graduation rate. Timely Graduation: The intended trajectory of the program is that the student would graduate in May of the year following their admission into the program (16 months later). Therefore, any student earning their Associate of Applied Science degree within 24 months of admission (1.5 x program expectation) is considered to have graduated in a timely manner. Students could theoretically graduate, but not in a timely manner, but program rules are strict enough that this has not yet occurred and probably will not. These data are reported to the Arkansas Department of Higher Education, and IPEDS.	7	70	ASUMH surveys all graduates within 6 months after graduation and determines who has secured employment in their field. Additionally, those that have continued on to additional education and/or military service are included among the employed category. Those that are employed, but not in the field of study, or those that continue to seek employment are categorized as not employed in field. Graduates are evaluated 6 months following graduation, allowing them time to search and secure employment. These data are reported to the Arkansas Department of Higher Education, IPEDS, and Perkins Grant administration.	7	86
Brightpoint Community College	Students will apply to be formally placed into the Funeral Service program. Upon applying the students will indicate full-time or part-time status. Full-time students will have 4 semesters (including summer) to complete the Program. Part-time students must complete the Program within 6 semesters (including summer). Exceptions may be made by the Funeral Services Program Director on a case-by-case basis. Upon Acceptance the Program Director will document full-time or part-time status. Upon completion of the program the Program Director will document completion and notate Timely Graduation status.	51	89	Job placement and employment metrics are gathered during two separate time frames; At time of graduation and then 6 months after to determine employment status. The data that is received is then recorded and used to determine the rate measurement. Rates are calculated by the total number of students employed divided by the number graduated during that time frame, ie. Spring graduates are calculated upon graduation and then in December of the graduation year.	52	86
Cape Cod Community College	Graduation rate reflects cohort graduation rate (% of students from original cohort completing in the designated year)	19	82	Job placement/employment rates are calculated by those students that are in funeral service related employment within 6 months of degree completion, accounting for those pursuing a higher degree not considered in the calculation.	19	100
Carl Sandburg College	Graduation rates are calculated by taking the initial enrollment numbers of the class and compare that to the number of completions. These numbers are then reported to the State of Illinois and the ABFSE.	100	100	Compairing the number of completers to the number that are gainfully employed in funeral service.	15	93
Chandler-Gilbert Community College	Total number of students who actually graduate divided by those who start the program.	26	93	We survey students roughly 6 months after graduation and ask about employment after school.	26	88
Cincinnati College of Mortuary Science	The percentage of students completing the program of those who began in the same cohort. We exclude those who have withdrawn in the first week of class. All findings are reported to IPEDS and HLC annually.	74	97	The percentage of graduates eligible for and seeking an apprenticeship who obtain one. Excludes those who are unable to relocate, those pursuing additional education, alternative careers, and military service commitments. Reported to HLC as employed if within 6 months of graduation.	74	93
Columbus Technical College	The 2022 cohort was established using any new Funeral Service student who enrolled in a funeral service course at any point during the 2022 calendar year. These students were tracked to graduation. The graduation rate was calculated using the number of students who graduated during the 2024 year divided by the students in the cohort. This data is submitted to the Knowledge Management System.	4	55	The Job Placement rate is calculated using the number of 2024 funeral service graduates who are employed in field within six months of graduation. This rate is calculated by dividing the number of graduates who have obtained in-field placement by the total number of graduates.	6	67
Commonwealth Institute of Funeral Service	The rate is obtained by dividing the number of graduates (in the two yearly graduating cohorts) by the number of new students in the cohort(s) that successfully completed 1/2 of the program length.	146	79	The Texas Workforce Commission requires a completer survey to be filled out by each graduate at the time of graduation. This form is used to determine/verify a graduate's employment status. The total number of those employed in funeral service is divided	155	67

Page 27

Institution	Graduation Rate Methodology			Employment Rate Methodology		
				by the total number of graduates.		
Community College of Baltimore County - Catonsville	For an Associates Degree, the ABFSE Standard states that students have 18 additional months to complete the program once they have completed 50% of their course work. The Mortuary Science Program uses successful completion of MORS 101 (Funeral Service Principles I) as the benchmark to determine whether students have completed 50% of their degree (including general education courses per the ABFSE Standard). CCBC reported 26 graduates in 2024. 20 of the 26 graduates completed their degree within 18 months of finishing MORS 101. Six of the graduates took more than 18 months. The graduation rate is (20/26 x 100) = 76.9%	20	76.9	Employment rates are calculated using student data taken within 6 months after graduation. 26 students graduated in 2024. All of them are employed, with 24 of them working in funeral service. The employment rate is therefore calculated as 100%.	26	100
Cypress College	Number of graduates divided by the number of newly enrolled Mortuary Science students (same time period)	39	67	Number of graduates employed within 6 months of graduation divided by the total number of graduates	45	78
Dallas Institute of Funeral Service	The graduation rate is calculated by the dividing number of students that graduated by the number of new enrollees.	114	88	The number of students that are working in funeral service or related occupation plus those continuing their education divided by the total number of graduates.	130	84
Delgado Community College	Graduation rate is determined by the number of students who graduate the program. There were 16 new enrollees in 2023 and 11 graduates for the 2024 year for a graduation percent of 68.75%. This data is submitted to the Office of Institutional Research at the college in order for them to generate reports regarding the impact of our program on the State of Louisiana's economy and to track graduate data for the state Board of Regents.	11	68.8	Graduates are contacted to determine if they have obtained employment in a funeral services or related field upon gradation. 6 of 11 graduates have obtained related employment for an employment percentage of 55. 1 graduate in not currently employed but is seeking funeral services related employment and 4 graduates did not respond to the request for information. Data are submitted to the college office of institutional research in order to determine the ecomnomic impact of the program on the state.	11	55
Des Moines Area Community College	Each year, the program chair adds the names of all students to a Student spreadsheet. We then calculate how many students were in the program during the past year; how many students graduated in the past year; how many left the program in the past year; and how many are still in the program. The Graduation/ Retention rate is the sum of Graduates plus the number retained at the end of the year divided by the total number of students served during the year.	74	82.7	Each student completes MOR 940 - Funeral Capstone during their final semester. As part of the course, they are given a survey which asks if they have a job lined up after graduation. If they check yes, it is noted for the annual report. If they check no, (also noted), the program chair reviews the state's licensing page during January of the following year, prior to completing the Annual report and if the Graduate is listed as a licensed funeral practitioner, or intern, it is noted as having a job on the spreadsheet. The calculation is then made for those who have been placed divided by the total number of graduates.	83	964
East Mississippi Community College	Graduation rates are calculated according to 10.3.2. Students who enroll in the fall term of their sophomore year are tracked to graduation for calculation of the time to graduation rates. Graduation rates for the FT program are submitted to Federal Perkins report, Mississippi College Board, National Student Clearing House, and Integrated Postsecondary Education Data System (IPEDS)>	17	94	Employment rates are calculated according to 10.3.3 and 10.1.2.e. Job placement was calculated within one month of each student graduation.	17	94
Eastwick College	We report graduation rates to the Accrediting Commission of Career Schools and Colleges (ACCSC). ACCSC requires that we report day and evening cohorts separately within specific start date time frames, which depend on program length. The cohorts for the 2024 Annual Report were 12.01.2019 - 11.30.2020 (evening). There were no students to report for the day session. The graduation rate was 41%, which met ACCSC's benchmark of 40% for programs of 27 months. Graduation Rate = A / (B - C + D - E), where: A = Graduates within 150% of program length B = Number of students who started the program C = Transfers to other programs D = Transfer from other programs E = Students who were unavailable for graduation (death, incarceration, active military service deployment, or onset of medical condition)	20	41	ACCSC uses the following formula: Placement Rate = A / (B - C - D), where: A = Graduates employed in the field B = Graduates within 150% of program length C = Graduates who pursued further education D = Graduates who were unavailable for employment death, incarceration, active military service deployment, onset of medical condition, or visa ineligibility)	20	100
Fayetteville Technical Community College	Graduation rates are calculated on a student's entry date into the Funeral Service Education (A55260) program that complete all graduation requirements within 150% of their normal time to completion, which is equivalent to six semesters. This data is submitted to the Department of Education , National Center of Education Statistics and the North Carolina Community College System. Of the 75 degree program graduates in 2024 65 or 86.7% of the graduates are considered timely. The remaining 10 graduating students, or 13.3%, took at least seven semesters to graduate. These students were either part time or had extenuating circumstances that prolonged their program of study.	65	86.7	Employment rates include graduates who are employed in Funeral Service or related field, continuing their education and or active duty military. In this Annual Report, of 75 graduates 63 were employed in Funeral Service or related fields, 4 were continuing their education. As a result, 65 of the 75 graduates were determined to be employed in our Job Placement percentage of 89%. Graduates rates are posted on our college website and submitted to employers participating in the employer survey.	75	89
FINE Mortuary College	Successful completion of the program per ABFSE standards. Students are required to complete 70 credit hours.	14	100	We use MMI to verify student employment after graduation.	14	86
Florida State College at Jacksonville	Graduation Rate (%) = (Number of students who graduated within the timeframe divided by the number of students in the cohort) 100	17	95	The number of Students who graduate in the time frame of the cohort who report that they are employed full time or part time in a funeral home or related business divided by the total number of students in the cohort.	20	80
Goodwin University	Graduation rate is the percentage of students who complete the Funeral Services program within 6 semesters after they were enrolled in the program. Calculation: the number of graduates divided by the number of enrolled students. If a student leaves the program without completing any of the funeral service course(s), for personal reasons, or changes programs without failing the funeral service course(s), they are removed from the "enrolled students" category.	21	100	Programmatically: Students and employers are surveyed after graduation; Institutionally: Students are surveyed 6 months after graduation.	21	100
Gupton-Jones College of Funeral Service	Number of graduates in the program in 2024, divided by the total students enrolled in the capstone course in 2024	22	78	We measure job placement/employment rates for our program using a survey. After program completion, we conduct a survey to gather data on graduates' employment status, including whether they have secured a job related to the field of study. The calculation method typically involves dividing the number of graduates employed in their field by the total number of graduates who responded to the survey.	65	81

Page 28

Institution	Graduation Rate Method			Employment Rate Method		
Hudson Valley Community College	Calculations used previously -cohort - typically students who began the program in the same term/year Calculate the graduation rate using this formula: Number of students from cohort who completed within expected time-frame / Total number of students in original cohort The total number of graduates divided by the number of entering students is the graduation rate. This is submitted to registrar office (Students eligible for graduation from a specific cohort & timely graduation.the graduation rate is the number of graduates divided by the total number of graduates, dropouts, and continuing students . Use the Catalog date of when students were matriculated).	10	70	Total number of graduates which fulfill requirements, those who complete NBE vs. those not taken or incomplete (fail) Number of employed graduates / Total number of graduates eligible for employment total # grads registered with state residency/ licensing board within 6 months of graduation. Out of State students do not register with NY and do not report to school. Some states do not need NBE - VT & MA - students are employed without the exam.	9	70
Ivy Tech Community College of Indiana - Central Indiana	Students who complete their degree in 1.5 times the length of the program (67 credits; 4.5 semesters)	26	86	Survey of students within 6-7 months of graduation divided by total number of graduates.	26	100
Jefferson State Community College	The report will cover the Spring and Fall 2023 semester enrollee cohort, no summer enrollment. The students who are moving through the second half of the AAS Degree Program would be considered to have graduated on time if they completed their degree within 18 months vs. the number of students that completed the FSE Program over 18 months. 50% of the FSE Program is 33.5, 67 hours total. Using Standards 10.3.2 from 2020 to calculate.	43	63	Annually, the Institutional Effectiveness department conducts a job placement survey, however, our students are employed at a funeral home during their enrollment in the FSE Program and prior to graduation. The FSE Program counts program completion and six additional months toward job placement. Also note, if a student loses employment while in the FSE Program we sometimes assist with new employment. Students have 3 weeks to find new employment to continue in FSE Program.	43	100
John A Gupton College	The graduation rate for John A. Gupton College is calculated from the point a student completes 50 percent of their program requirements (31 semester hours for Associate of Arts Degree/30 semester hours for the Associate of Applied Science Degree), the student must complete the program within 1 1/2 times the remaining length of the program (3 semesters).	31	67	The job placement/employment rate for John A. Gupton College is calculated by the percentage of graduates working in funeral service or related field versus those who are not working in funeral service or related field.	46	80
Kansas City Kansas Community College	Our graduation rate is interchangeable with the Mortuary Science department's student retention rate from Spring to Fall. In the Spring of 2024, were 31 students enrolled in the program, and in the Fall of 2024, 30 students persisted and graduated. This equates to a 96,77% graduation rate.	30	96.8	Graduating students are surveyed twice regarding their job placement status: Once just before they leave the program and again six months after they have graduated. Students are asked if they are employed if they are employed in funeral service, and about their level of compensation.	30	74
Lake Washington Institute of Technology	The number of graduates is divided by the number of students who completed 50% or more. This is reported to the ABFSE and the SBCTC.	18	86	The number of graduates employed in funeral service or related fields is divided by the total number of graduates. This is reported to the SBCTC.	19	26
Malcolm X College	Students moving through the second half of the program will be considered to graduate on time if they complete their degree within 100% times the program length (4 semester terms). Four students completed their coursework in 4 semesters, but due to the approved COA curriculum changes their degree did not get conferred until August 2024.	17	81.8	Job placement and employment are calculated by the number of graduates that secure employment within 6 months of graduation in any professional field. Data is collected via survey and the results are submitted to Malcolm X College Intuitional Effectiveness Department for review.	18	100
Mercer County Community College	Most students have completed the program due to proper guidance. Those who do not complete it do so for either financial or personal reasons. There are Program-specific measurements in place: Successful completion of all required coursework Completion of clinical requirements and internships Passing required licensing exams (e.g., National Board Exam) Meeting state-specific educational requirements for funeral service licensure	22	95	Graduates are tracked for 6 to 12 months post-graduation with a survey. The Employment Rate equals the number of employed graduates divided by the total number of graduates times 100. The number of graduates includes those working full-time or part-time in Funeral Service.	25	100
Miami Dade College	We use the total amount of students that are supposed to graduate in that specific year (84 students for 2024) and then we take the percentage out of that amount of students that actually graduated (26 graduates in 2024)	24	30.9	We get this data through email or phone communication with the students and use the total amount of graduates and employment to get the percentage.	26	90
Mid-America College of Funeral Service	Students are counted as being in the program once they enroll for courses and are present the first day of class. Students are then tracked until they complete the program via a Student Infromation System (SIS). Once a student completes all program requirements, they are then cleared for graduation by the registrar. The number of graduates is then compared to the number enrolled on the first day of class and the percentage calculated. Data is submitted to the campus president, to the CEO and COO of Pierce Mortuary Colleges. Data is also used for IPEDS reporting.	79	82	Graduates are surveyed for job placement. those indicating employment are then compared to those indicating not employed. Students' indicating continuing education or military service are not counted in the percentage.	80	75
Milwaukee Area Technical College	The graduation rate is calculated by dividing the number of graduates from the Funeral Service Program by the number of students enrolled at the start of the given cohort. This data is reported to the ABFSE.	25	86	Job placement is calculated by dividing the number of currently employed Funeral Service graduates by the number of total Funeral Service graduates in a given cohort. This data is reported to the ABFSE.	26	100
Mt. Hood Community College	We divide the number of graduates by the number of students who reached week three of the first term of the second year of the program.	17	100	We record as employed any graduate who is employed in the field for any length of time between graduation and 6 months after graduation. For 2024, 14 of the 18 graduates did find employment during that time period after graduation = 78%	18	78
Nassau Community College	A timely graduate is considered when the student completes the program within three years of start date. One and a half times the length of the program.	25	93	A graduate is considered working if they are in a funeral service position in a funeral home. This information is sent to our NCC web Editor to be published on the NCC Mortuary Science Website and ABFSE website.	27	89
North Shore Community College	Students are tracked to graduation and included in the following graduation rate calculations when they reach the point in the program. The annual graduation rate is calculated by dividing the number of graduates in an academic year by the total number of those admitted from the graduates cohort year(s), minus the number of students still actively enrolled in the program from the respective cohort(s), minus the number of previous graduates from the cohort(s), if any. Students are considered not actively enrolled in the program when they have informed the program of their intent to withdraw, in writing, or they have not been enrolled in any courses for more than one semester (not inclusive of Summer or Winter Term), at which point they are automatically removed from the program.	9	63	Graduate employment status is gathered through the mandatory completion of a graduate survey. Graduates who indicate they are directly employed in funeral service, employed in a funeral service-related field, are active military or are continuing on to further higher education are marked as employed. The total number of employed graduates is divided by the total number of graduates for that year to determine the respective employment rate.	10	90

Page 29

Institution	Graduation Rate Method			Employment Rate Method		
Northampton Community College	The graduation rate is determined by the number of students who start in a cohort and successfully complete their program. This data is submitted to the American Board of Funeral Service Education as part of the annual report for the reporting year. Additionally, it is provided to the college's Institutional Effectiveness Office. For 2024 16/20 graduated.	16	80	The employment rate is calculated based on the number of graduates and those placed in a funeral service-related field within six months of graduation. In 2024, 15 out of 16 graduates secured employment in the funeral service industry.	16	94
Northeast Texas Community College	Graduates of the A.A.S. in Funeral Service Education will be calculated by the successful completion of MRTS 1225-Thantochemistry. This course was selected because it is a science course offered early in the student's educational experience (second or third semester), and enrollment in this course would indicate an Interest in the A.A.S. degree. Graduates are tracked from MRTS 1225 course completion through to graduation. We allow students to transfer to a different cohort should they fail a course or need to change their schedule. If a student leaves or doesn't enroll for future program courses and has completed MRTS 1225, they will be counted as a student who was dropped or has withdrawn from the program. Given the ability of students to migrate and change cohorts during their program, we have modified our method for calculating graduation rates. For 2024, and moving forward, we will review course completions of MRTS 1225 from 18 months before the two graduating cohorts. The current number of graduating students is divided by the total number of course completions within that time frame. To determine our 2024 graduation rate, we reviewed course completions from Fall 2022 and Spring 2023. Graduation rates are reported to theABFSE and institutionally during our five-year program review.	25	90	Employment rates are calculated using graduate surveys and personal communications. Calculating Job Placement:(Students that indicate employment in funeral service through surveys and/or personal communications) = B (B /number of Graduates)* 100 =% of graduates employed in funeral service. Job placement rates are reported to theABFSE and institutionally during our three-year program review.	26	88
Northwest Mississippi Community College	NWCC utilizes the number of students who meet the 50% benchmark of the curriculum versus those who actually graduate (versus those who withdraw or change majors).	2	86	NWCC utilizes the number of graduates employed in funeral service at graduation or 6 months post-graduation.	7	71
Ogeechee Technical College	Graduation rates are based on the use of student cohorts. An identifying course FSRV 1020 Funeral Service Law & Ethics is used to determine the cohort. Students are considered graduates once they have completed all the required coursework, regardless of their NBE status. The graduation rate is calculated on a calendar year (spring, summer, and fall). The calculation method for graduation rates is the number of graduates divided by the number of graduates and leavers. This method of calculation is consistent with the method of calculation used by the Technical College System of Georgia in determining a statewide graduation rate and for calculating individual graduation rates for each technical college in the system.	14	93.8	Job placement/employment rates are based on the use of the same cohort mentioned previously. An identifying course is used to determine the number of students who are in funeral service majors. The calculation method is the sum of graduates identified as 'Employed in Funeral Service or Related Field', 'Continuing Education', 'Military Duty', and 'Employed in a non Funeral Service Related Field' divided by the sum of graduates identified as 'Employed in Funeral Service or Related Field', 'Continuing Education', 'Military Duty', 'Employed in a non Funeral Service Related Field', and 'Not Employed'. Graduates identified as 'Not Seeking Employment' and 'No Employment Info Available' are excluded from the denominator. This method of calculation is consistent with the method of calculation used by the Technical College System of Georgia in determining a state-wide placement rate and for calculating job placement rates for each technical college in the system.	15	92
Piedmont Technical College	We evaluate the number of new enrollees and graduates who complete the program within 1 1/2 times during a calendar year.	21	81	Our job placement rate is calculated based on the number of students who are gainfully employment within six months after graduation.	26	85
Pittsburgh Institute of Mortuary Science	The calculation method is taking the number of students who graduated, divided by the number of students who entered the program. This rate is also published by the Department of Education on the College Navigator website.	125	92	Surveys are conducted at program completion with data reported directly by the students and follow up with Survey Monkey. The Calculation method takes the number of students indicating employment (in funeral service or a non-related field to funeral service) divided by number in the reporting cohort minus students fulfilling military obligations and students seeking to continue their education. Using the numbers listed below, the total is 132 less 8 who are continuing their education and 9 that are simply unknown; deducting those two categories leaves 115 employed, which presents an employment rate of 100%.	122	100
Salt Lake Community College	We calculate our graduation rate by dividing the number of students who graduated by the number of students still in the program at the end of the second semester. This is the data we report to ABFSE and to our institution.	18	90	We gather employment data from the graduates and report it to ABFSE and our institution.	18	94
San Antonio College	New enrolees are reported as a cohort when they enter the accredited program (AAS) and are tracked to graduation. When students complete 50% (CLII) or more of the degree program, they will be tracked until graduation for calculation of the timely graduation rate. From this point, completing 150% of the program length will be considered a timely graduation (10.3.2).	22	93.9	Job placement and employment rates are assessed within six months of each student's graduation. A survey conducted at the time of graduation will be considered as "within six months." Students for whom no data is available will be regarded as not employed. Employment related to funeral services, active military duty, or enrollment in additional higher education, according to the Texas Higher Education Coordinating Board CB116, is counted as employment in this calculation (10.3.6).	33	84
Southern Illinois University	The students are counted at the beginning of their junior year (half way through the program) and then again at graduation. The smaller number is then divided by the larger number to find the graduation percentage.	11	79	We contact all students 6 months after graduating to see who is employed, in what field and if not, what they are doing. This data is collected for accreditation, but also for assessment for the program and university.	11	91
Southwest Tennessee Community College	The graduation rate is calculated by the number of cohort that graduate in a certain time period (2,3 or 4 years). The entities to which the data are submitted to Southwest, SACS-COC and TBR.	7	100	Job placement rates are measures through a job placement survey. The formula for the job placement rate is the number of students currently employed in funeral service divided by the number of students that graduated.	7	100
St. Louis Community College	The graduation rate is determined by dividing the number of graduated students with those enrolled in the class. This information is reported to the Dean of Health Sciences Division.	7	77	We have had a difficult time getting students to respond to any placement survey so, the program director e-mails each student to determine if they are employed.	7	71
St. Petersburg College	At halfway point of the curriculum students have 1.5 yrs to complete the program. Or five semesters.	17	89	Student are survey after graduation. Number who are employed vs. those who graduated. To ABSFE and to the Dean Allied Health	22	100
State University of New York at Canton	The FSAD program's graduation rates are determined in accordance with the federal government's definition, which tracks first-time, full-time, degree-seeking freshmen enrolled each fall	22	100	Employment rates for FSAD graduates are determined through post-graduation surveys, which are administered six months after program completion. These surveys are distributed to all	22	77

Page 30

semester. Graduation is measured after 150% of the programs expected completion time. The numerator includes students who successfully earn a degree within this timeframe, while the denominator consists of all members of the original cohort who are still living. However, because most FSAD students enter SUNY Canton with prior college credits, they often do not fit within this federal classification. To provide a more accurate measure of student success, the FSAD program calculates its graduation rate based on students who have accumulated more than 60 credits and complete the program within 150% of the expected timeframe from that point forward. This approach more accurately reflects the progress and achievements of FSAD students, many of whom are transfer students or have non-traditional academic backgrounds.

graduates and include questions regarding their current employment status and satisfaction with the program. The job placement rate is calculated by dividing the number of graduates who report being employed by the total number of survey respondents. In addition to the survey process, the FSAD Program Director personally follows up with each graduate to confirm their employment status and gather further insights on their post-graduation career outcomes. This comprehensive approach ensures a thorough and accurate assessment of job placement trends within the program.

Institution	Graduation methodology	#	Rate	Job placement methodology	#	Rate
Tidewater Community College	Graduation rates for the AAS - Funeral Service Degree are calculated using the following methodology. TCC Office of Institutional Effectiveness calculates graduation rates of selected programs. Two-year and three -year rates are based on a cohort of students admitted to the program during a particular semester. Students are identified by enrolling in entry level courses. All admitted students are included both full and part-time.	3	69	Graduates are tracked for a period of one-year from the date of graduation. If a student graduates with a position in a funeral service related career they are considered employed. Active duty military students are exempted from this calculation unless employed part-time in funeral service.	4	75
University of Arkansas Hope-Texarkana	Graduation rates are calculated by dividing the number of graduates by the students that begin the program cohort. Data is maintained by the Program Director, Division Dean, and Office of Institutional Effectiveness.	13	81.3	Job placement rates are measured using a graduate survey, which is administered 6 months after graduation. Data is maintained by the Program Director, Academic Dean, and Office of Institutional Effectiveness.	13	100
University of Central Oklahoma	Current graduation rate is calculated using total enrollment for previous year report, subtracting students who left in current year report (based on ABFSE standard of only counting students who have completed 50% or more of the program) and dividing to get percentage of students staying on the path to graduate. This data may be evaluated departmentally and shared at the college level. It is also available here and for interested parties on the website or through request to our office. General data for the institution is also available publicly on the University IR Data Dashboard.	39	99	Employment rates are measured by surveys, licensure research and post-graduation correspondence. Students employed in non-related field or not employed and students with no data available would be subtracted from graduate total for the year and the result is expressed as a percentage.	39	87
University of Minnesota - Twin Cities Campus	The Program's graduation percentage rate is calculated as follows: At the end of each calendar year, the total number of graduates (x) is divided by the number of graduates who completed their degree requirements within 1.5 times their program length (y), to determine the program's graduation rate (z), as follows $x/y=z$. Note: for students who matriculate as juniors, 1.5 times program length is 36 months; for students who matriculate as sophomores, 1.5 times program length is 54 months. The Program does not matriculate freshman.	29	100	The Program's employment percentage rate is calculated as follows: At the end of each calendar year, the total number of graduates (x) is divided by the number of graduates who secured employment in funeral service following graduation (y) to determine the Program's annual employment rate (z), as follows: $x/y=z$.	29	93
University of the District of Columbia Community College	Of the five students in our 2024 graduation cohort, all five completed the program and graduated. 5/5 = 100%. This data is submitted to the registrar's office.	5	100	We keep in contact with our students and have an employer survey 2/5 = 40% are employed in Funeral Service.	5	40
Vincennes University	VU utilizes the IPEDS method for graduation calculation based on 150% of on-time graduation. The VU FSE program was set at 5 semesters for 2024 graduates. These students would need to complete the program in 7.5 semesters or less.	24	92.3	After graduation, VU FSE deploys the graduate survey. The survey asks if the students are working, and if yes, where and in funeral service or not. Once returned and the survey is closed, the information is evaluated and the graduates who are working in funeral service are compared against those who are not.	24	625
Wayne State University	The number of graduates from a cohort is divided by the total number of students who started the program in that cohort. Students continuing in the program, either by part-time status or to repeat a course, are not included in the calculation. Data are provided to college administration through the Associate Dean for Health Sciences and the Mortuary Science Advisory Committee.	35	97	Job placement is determined just prior to graduation in July. Students who do not report job placement prior to graduation are contacted again in January. The number of graduates employed is divided by the total number of graduates. Data is submitted to college administration and the Advisory Committee as part of the assessment process.	35	97
Worsham College of Mortuary Science	Worsham College's campus program is 12 months, therefore, new campus enrollees for 2022 will become 2023 graduates. Worsham College's online program is 16 months in length, so their graduation date will depend on the student's start date.	96	90	Graduate surveys are sent to the recent graduates (within two months of completing the program) seeking their input on their current and future job prospects. This survey allows the college to capture the student's supervisor's contact information for additional feedback on student progress and job comprehension. Students employed in funeral service are divided by the number of graduates that are: in funeral service, not seeking employment, not employed	101	86
